11. When, for the purpose of explanation during discussion or for any other sufficient reason connected with the matter then under consideration of the Council, any member has occasion to ask a question of another member, he shall ask the question through the President.

Limitations on debate.

12. (*1*) The matter of every speech must be relevant to the matter before the Council.

(*2*) A member while speaking may not—

(*i*) reflect upon His Majesty the King;

(*ii*) reflect upon the conduct of—

(*a*) the Governor General, or

(*3*) No discussion on a point of order shall take place except with the leave of the President.

Personal explanations.

14. Notwithstanding anything contained in these rules, a member may, with the permission of the President, make a personal explanation at any time, but in doing so no debatable matter may be brought forward and no debate can arise.

Irrelevance or repetition.

15. The President, after having called the attention of the Council to the conduct of a member who persists in irrelevance or in tedious repetition either of his own arguments or of the arguments used by other members in debate, may direct him to discontinue his speech.

Power to order withdrawal of member.

16. (*1*) The President shall preserve order and have all powers necessary for the purpose of enforcing his decisions on all points of order.

(*2*) He may direct any member whose conduct is in his opinion grossly disorderly to withdraw immediately from the Council, and any member so ordered to withdraw shall do so forthwith and shall absent himself during the remainder of the day's meeting. If any member is ordered to withdraw a second time in the same session, the President may direct the member to absent himself from the meetings of the Council for any period not longer than the remainder of the session, and the member so directed shall absent himself accordingly. The member so directed to be absent shall not be deemed to be absent for the purposes of sub-section (*4*) of section 68 of the Act.

(*3*) The President may in the case of grave disorder arising in the Council suspend any sitting for a time to be named by him.

Power of person presiding in absence of the President.

17. All the powers conferred on the President by these rules to be exercisable at a meeting of the Council, shall be exercised, in the absence of the President, by the person presiding over the Council, and all references to the President in these rules shall, in so far as they relate to his functions when presiding over meetings of the Council, be construed as references to the person presiding over the Council in his absence.

18. On one day for each week private members' business shall have precedence and on other days Government business, unless the Governor otherwise directs, shall have precedence. The Governor may allot different days for the disposal of different classes of private members' business. On days allotted for any particular class of business, business of that class shall have precedence.

Business left over from session.

19. (*1*) On the termination of a session all pending notices shall lapse, and fresh notice must be given for the next session except in the case of a question of which due notice has been received and which has not been answered.

(*2*) On the termination of a session Bills which have been introduced shall be carried over to the pending list of business of the next session:

Provided that, if the member in charge of a Bill gives no notice of a motion in regard to the same during two complete sessions, the Bill shall lapse, unless the Council on a motion by that member make a special order for the continuance of the Bill.

(*3*) The President may, in respect of any Bill, suspend the operation of this rule.

Arrangement of business.

20. (*1*) At times when Government business has precedence, the Governor may arrange that business in such order as he thinks fit.

(*2*) The relative precedence of notices of Bills and resolutions given by private members shall, from time to time, be determined by ballot in such manner as the President may direct. The order of priority as determined by the ballot shall, subject to the provisions of rules 22 and 104, be final.

(*3*) On a day allotted for the disposal of private members' Bills, such Bills shall, provided that any notice required by these rules has been given, have relative precedence in the following order:—

(*a*) Bills returned by the Governor with a message under section 75 or 76 of the Act;

(*b*) Bills originating in the Council which have been returned by the Assembly after amendment;

(*c*) Bills originating in the Assembly which have been sent to the Council;

(*d*) Bills, if any, taken out of turn under rule 22;

(*e*) Bills recommended by the Bills Committee;

(*f*) other Bills.

Bills of each of the above categories shall be arranged so as to give priority to those which are most advanced. The relative precedence of Bills which have reached the same stage shall be determined by ballot in such manner as the President may direct.

21. (*1*) A Bills Committee shall be constituted at the commencement of the first session in each financial year, and shall consist of the Deputy President, who shall be Chairman, and seven other members who shall be elected by the Council according to the principle of proportional representation by means of the single transferable vote.

(*2*) The Bills Committee shall meet before the commencement of each session at such time as the President shall appoint to consider the Bills of private members in respect of which notice for leave to introduce at the coming session has been received, and shall report to the Council the Bills (not exceeding three in number) which they consider should be given precedence.

(*3*) Members of the Bills Committee shall hold office until the Committee is reconstituted in the following year in accordance with the provisions of sub-rule (*1*), and any member shall be eligible for re-election. Casual vacancies shall be filled as soon as possible after they occur by nomination by the President from, whenever possible, the party to which the member in whose place the vacancy has occurred belonged, and any person nominated to fill such a vacancy shall hold office only until the Committee is reconstituted but he shall be eligible for re-election.

Provided that not more than one Bill shall be given such precedence in any one session of the Council.

(*2*) If more than one such requisition is received in respect of any one day and the consent required by sub-rule (*1*) is obtained thereto, the Bill to have precedence shall be determined by ballot in such manner as the President may decide.

List of business.

23. (*1*) A list of business for the day shall be prepared by the Secretary and shall be circulated to all members.

(*2*) No business not included in the list of business for the day shall be transacted at any meeting without the leave of the President.

25. The first hour of every meeting shall be available for the asking and answering of questions.

Notice of questions.

26. (*1*) A member who wishes to ask a question shall give twelve days' notice of his intention and shall, together with the notice, submit a copy of the question he wishes to ask:

Provided that the President may, with the consent of the Minister in charge of the Department to which the question relates, allow a question to be put at shorter notice than twelve days:

Provided also that no member shall, unless he has obtained the special permission of the President, be permitted to send in notice of more than twelve questions during one session of the Council, exclusive of any question that may have been carried over for reply from a previous session.

(2) Questions which have been admitted shall be entered in the list of questions for the day of meeting next following the day on which the period of notice thereof expired.

Disallowance of questions by the Governor.

27. The Governor acting in his discretion may at any time before a question is asked inform the President that he disallows the question or any part thereof on the ground that it affects the discharge by him of his functions in so far as he is by or under the Act required to act in his discretion or to exercise his individual judgment and if he does so the question or part of the question shall not be entered in the list of business or, if it has been so entered, the President shall not allow the question to be put.

Certain questions not to be asked without the consent of the Governor.

28. (1) No question shall be asked, save with the consent of the Governor acting in his discretion, in regard to any of the following subjects, namely:—

(i) any matter connected with the relations between His Majesty or the Governor General and any foreign State or Prince;

(ii) the personal conduct of the Ruler of any Indian State or of a member of the ruling family thereof;

(iii) any matter arising out of or affecting the administration of an excluded area.

(2) No question shall be asked on any matter connected with any Indian State unless the Governor acting in his discretion—

(i) is satisfied that the matter affects the interests of the Provincial Government or of a British subject ordinarily resident in the Province, and

(ii) has given his consent to the question being asked.

(3) If the President is of opinion that a question is or may be one which cannot be asked save with the consent of the Governor, he shall, as soon as may be after the receipt of the notice of the question, forward to the Governor a copy thereof and, unless the Governor (whose decision in the matter shall be final) decides in his discretion that the question may be put, it shall not be entered in the list of business.

(4) Notwithstanding the fact that the President has made no reference under sub-rule (3), if the Governor acting in his discretion considers that any question or part thereof is one which cannot be asked without his consent he may withhold his consent to the asking of the question and, on communication to the President of his decision which shall be final, the question shall not be entered in the list of business or, if it has been so entered, the President shall not allow the question to be put.

(5) The President shall disallow any supplementary question if, in his opinion, it infringes the provisions of this rule.

Disallowance of questions by the President.

29. The President may disallow any question or any part thereof on the ground that it relates to a matter which is not primarily the concern of the Provincial Government and if he does so, the question, or part of the question, shall not be placed on the list of business.

Form and contents of questions.

30. In order that a question may be admissible, it must satisfy the following conditions, namely:—

(*i*) it must be asked with the object of eliciting information;

(*ii*) it must not bring in any name or statement not strictly necessary to make the question intelligible;

(*iii*) if it contains a statement, the member asking it must make himself responsible for the accuracy of the statement;

(*iv*) it must not contain any argument, inference, imputation, epithet or ironical expression;

(*v*) it must not ask for expression of opinion or the solution of a hypothetical proposition;

(*vi*) it must not be asked as to the character or conduct of any person except in his official or public capacity, nor make or imply a charge of a personal character;

(*vii*) it must not be of excessive length;

(*ix*) if it relates to a newspaper report, the relevant cuttings from the paper shall be attached to the notice, but the name of the paper shall not appear in the question.

Questions regarding controversy with higher authorities.

31. In matters which are or have been the subject of controversy between the Governor General in Council or the Secretary of State and the Provincial Government, no question shall be asked, except as to matters of fact, and the answer shall be confined to a statement of facts.

President to decide admissibility of question.

32. The President shall decide on the admissibility of a question with reference to the provisions of these rules and shall disallow any question when, in his opinion, it is an abuse of the right of questioning, or is in contravention of those provisions.

List of questions.

33. As soon as answers to questions which have not been disallowed are received by the Secretary, they shall be entered in a list of questions to be prepared as early as possible and in such manner as the President may determine and the questions shall be put, if the time available for questions permits, in the order in which they stand in the list before any other business is entered upon at the meeting. Any questions left over owing to time not being available shall be postponed to the next day of meeting when they shall take precedence over other questions.

Matters to which they must relate.

34. (*1*) A question addressed to a Minister must relate to the public affairs with which he is officially connected, or to a matter of administration of public interest for which he is responsible.

(*2*) A question addressed to a member other than a Minister must relate to some Bill, motion or other matter connected with the business of the Council for which such member is responsible.

Questions how put.

35. Questions shall be put and answers given in such manner as the President may, in his discretion, determine.

Answers to withdrawn questions.

36. The President, at the request of a Minister, may direct that any answer to a question may be given on the ground of public interest even though the question is not put or the member in whose name it stands is absent.

Supplementary questions.

37. Any member may put a supplementary question for the purpose of further elucidating any matter of fact regarding which an answer has been given:

Provided that the President shall disallow any supplementary question if, in his opinion, it infringes the rules as to the subject-matter of questions.

Supplementary question of which notice is asked.

38. If a Minister asks for notice of a supplementary question, the member asking such question shall draw his attention thereto in writing, but such question shall not be taken into account for the purposes of the second proviso to sub-rule (*1*) of rule 26.

Prohibition of discussion.

39. No discussion shall be permitted in respect of any question or of any answer given to a question.

PART IV.

MOTIONS.

Motions.

40. (*1*) A matter requiring the decision of the Council is brought forward by means of a question put by the President on a motion proposed by the President himself or by any other member.

(*2*) A member who wishes to move a motion (other than a motion for which a specified period is otherwise prescribed) shall give notice of his intention to the Secretary ten days before the meeting at which he intends to move the motion:

Provided that the President may, in his discretion, admit at any time any motion at shorter notice than that prescribed by any rule or may admit a motion without notice.

Voting.

41. The question on a motion shall be put in such manner as the President may, by orders made in this behalf, determine.

Admissibility of motions.

42. (*1*) Except as otherwise provided in these rules, the President shall decide on the admissibility of a motion.

(*2*) The President may disallow any motion when in his opinion, it does not comply with these rules.

Restriction on making of certain motions.

43. The provisions of rules 96 and 97 shall, so far as may be, apply to all motions, including motions under Part VII of these rules.

Repetition of motions.

44. A motion must not raise a question substantially identical with one on which the Council has given a decision in the same session.

Identical motions.

45. Where substantially identical motions stand in the names of two or more members, the President shall decide whose motions shall be moved and the other motions shall thereupon be deemed to be withdrawn.

Order of speeches, right of reply; time-limit of speeches.

46. (*1*) When any member has moved a motion, other members may speak to it in such order as the President may direct.

(*2*) Except in the exercise of a right of reply or as otherwise provided, no member shall speak more than once to any motion.

(*3*) A member who has moved a substantive motion may speak again by way of reply, and if the motion is moved by a private member, the Minister to whose Department the matter relates shall have the right of speaking after the mover, whether he has previously spoken in the debate or not.

(*4*) Except with the permission of the President no speech upon any motion shall exceed fifteen minutes in duration:

Provided that the mover of a motion, when moving the same, and the Minister in charge of the Department to which the motion relates when speaking for the first time, may speak for thirty minutes.

Rules as to amendments.

47. (*1*) An amendment must be relevant to, and within the scope of, the question to which it is proposed.

(*2*) An amendment may not be moved which has merely the effect of a negative vote.

(*3*) After a decision has been given on an amendment to any part of a question, an earlier part shall not be amended except with the leave of the President.

(*4*) An amendment on a question must not be inconsistent with the previous decision on the same question given at the same stage of any Bill or motion.

(*5*) The President may refuse to put an amendment which is in his opinion frivolous.

Order of amendments.

48. (*1*) When an amendment to any motion is moved, or when two or more such amendments are moved, the President shall, before taking the sense of the Council thereon, state or read to the Council the terms of the original motion and of the amendment or amendments proposed.

(*2*) It shall be in the discretion of the President to put first to the vote either the original motion or any of the amendments which may have been brought forward.

Division of motions.

49. When any motion involving several points has been discussed, it shall be in the discretion of the President to divide the motion, and put each or any point separately to the vote as he may think fit.

Withdrawal of motions.

50. (*1*) A member who has moved a motion shall not withdraw the same, except by leave of the Council.

(*2*) No discussion shall be permitted on a request for leave to withdraw, except with the permission of the President.

If the leave of the Council has been given to withdraw a motion to which an amendment has been proposed, the mover of the amendment may forthwith move the motion in its amended form.

Closure.

51. When any motion is under discussion, any member may move "that the question be now put," and unless it appears to the President that the request is an abuse of these rules or an infringement of the rights of reasonable debate or of the rights of the opposition, the question "that the question be now put" shall be put forthwith without debate thereon. If such motion be carried, the question shall be put accordingly, provided that the President may, unless the time, if any, allotted to the original motion is thereby exceeded, permit the mover of such motion and the Minister in charge of the department to which the motion relates to exercise such right of reply as may be provided in these rules.

PART V.

LEGISLATION.

(a) *Introduction.*

Publication of Bills.

52. The Governor may order the publication of any Bill (together with the Statement of Objects and Reasons accompanying it) in the *Calcutta Gazette*, although no motion has been made for leave to introduce the Bill. In that case it shall not be necessary to move for leave to introduce the Bill, and, if the Bill is afterwards introduced, it shall not be necessary to publish it again.

Notice of motion for leave to introduce Bills.

53. (*1*) Any member other than a Minister, desiring to move for leave to introduce a Bill shall give notice of his intention, and shall, together with the notice, submit six copies of the Bill and of the Statement of Objects and Reasons.

(*2*) If notice is given of a motion to introduce a Bill or to move an amendment which, in the opinion of the President, cannot be introduced or moved save with previous sanction, the President shall, as soon as may be after the receipt of the notice, refer the Bill or the amendment to the Governor, and the motion shall not be placed on the list of business unless the Governor has indicated to the President that the previous sanction required has been granted.

(*3*) The period of notice of a motion for leave to introduce a Bill shall be fifteen days, unless the President in exercise of his power to suspend this sub-rule allows the motion to be made at shorter notice.

Motion for leave to introduce a Bill.

54. (*1*) If a motion for leave to introduce a Bill is opposed, the President after permitting, if he thinks fit, a brief explanatory statement from the member who moves and from the member who opposes the motion, may, without further debate, put the question thereon.

(*2*) If such motion be carried, the Secretary shall read the title of the Bill, and the Bill shall thereupon be deemed to be introduced in the Council.

Publication.

55. As soon as may be after a Bill has been introduced, the Bill, unless it has already been published, shall be published in the *Calcutta Gazette*.

(b) *Motions after introduction.*

Motion after introduction.

56. (*1*) When a Bill is introduced, or on some subsequent occasion, the member in charge of the Bill having given the notice prescribed in sub-rule (*2*), may make one of the following motions in regard to the Bill, namely:—

(*a*) that it be taken into consideration by the Council either at once or at some future day to be then mentioned, or

(*b*) that it be referred to the Committee of the whole Chamber, or

(*c*) that it be referred to a select committee, or

(*d*) that it be circulated for the purpose of eliciting opinion thereon:

Provided that no such motion shall be made until after copies of the Bill have been made available for the use of members, and that any member may object to any such motion being made, unless copies of the Bill have been so available for fifteen days before a motion

under clause (*a*) or for seven days before a motion under clause (*b*), clause (*c*) or clause (*d*) is made, and such objection shall prevail, unless the President in exercise of his power to suspend this sub-rule allows the motion to be made.

(*2*) Save as provided in rules 68 and 85, the period of notice of a motion to take a Bill into consideration shall be twenty-one days, and of a motion that a Bill be referred to the Committee of the whole Chamber or to a select committee or circulated for the purpose of eliciting opinion thereon, fifteen days, unless the President in exercise of his power to suspend this sub-rule allows the motion to be made at shorter notice.

Discussion of Bills.

57. (*1*) On the day on which any such motion is made, or on any subsequent day to which the discussion is postponed, the principles of the Bill and its general provisions may be discussed, but the details of the Bill must not be discussed further than is necessary to explain its principles.

(*2*) At this stage no amendments to the Bill may be moved but—

(*a*) if the member in charge of the Bill moves that the Bill be taken into consideration, any member may move as an amendment that the Bill be referred to the Committee of the whole Chamber or to a select committee or be circulated for the purpose of eliciting opinion thereon before a date to be mentioned in the motion, or

(*b*) if the member in charge of the Bill moves that the Bill be referred to the committee of the whole Chamber, any member may move as an amendment that the Bill be referred to a select committee or be circulated for the purpose of eliciting opinion thereon, or

(*c*) if the member in charge of the Bill moves that the Bill be referred to a select committee, any member may move as an amendment that the Bill be circulated for the purpose of eliciting opinion thereon.

(*3*) The period of notice of an amendment moved under sub-rule (*2*) shall be ten days, unless the President in exercise of his power to suspend this sub-rule, allows the amendment to be moved at shorter notice.

(*4*) Where a motion that the Bill be circulated for the purpose of eliciting opinion is carried in the Council and the Bill is circulated in accordance with that direction, and opinions have been received thereon before the date mentioned in the motion, the member in charge of the Bill, if he wishes to proceed with the Bill thereafter, must move that the Bill be referred to the Committee of the whole Chamber or to a select committee, unless the President in the exercise of his power to suspend this order allows a motion to be made that the Bill be taken into consideration.

Persons by whom motions in respect of Bills may be made.

58. No motion that a Bill be taken into consideration or be passed shall be made by any member other than the member in charge of the Bill and no motion that a Bill be referred to the Committee of the whole Chamber or to a select committee or be circulated or re-circulated for the purpose of eliciting opinion thereon shall be made by any member other than the member in charge of the Bill except by way of amendment to a motion made by the member in charge of the Bill.

Discussion of Governor's Bill.

59. (*1*) When a message is received from the Governor under the provisions of paragraph (*b*) of sub-section (*1*) of section 90 of the Act with the draft of a Bill which he considers necessary, such message shall, as soon as may be, be read to the Council by the President, and copies of the message and of the draft Bill accompanying it shall be made available for the use of members as soon as possible.

(*2*) Any member may, after giving three clear days' notice, make a motion for an address to the Governor approving or disapproving the Bill, and may attach to such address a list of amendments to be made in the Bill, provided that such a motion shall not be made more than ten days after copies of the message and draft Bill have been made available under sub-rule (*1*), unless there is contained in the message an express direction extending this time.

(*3*) Amendments referred to in sub-rule (*2*) shall be dealt with in the same manner as amendments to Bills originating in the Council.

(*4*) The President shall, without delay, communicate to the Governor the proceedings of the Council in relation to the Bill.

Discussions of Governor's ordinances.

60. As soon as possible after the Governor has promulgated an ordinance under sub-section (*1*) of section 88 of the Act, printed copies of such ordinance shall be made available to the members of the Council. Within six weeks from the reassembly of the Council, any member may, after giving three clear days' notice to the Secretary, move a resolution disapproving the ordinance and if such a resolution is passed, it shall be forwarded to the Assembly with a message asking for its concurrence.

Effect of certification by Governor.

61. A certificate by the Governor under sub-section (*2*) of section 86 of the Act in respect of any Bill or any clause of a Bill or any amendment to a Bill directing that no proceedings or no further proceedings shall be taken in relation thereto, may be made by message and shall be communicated to the Council by the President. On receipt of such a certificate, all notices of motions in connection with the subject-matter of the certificate shall lapse and if any such motion has not already been set down on the list of business, it shall not be so set down. If any such motion has been set down on the list of business, the President shall, when the motion is reached, inform the Council of the Governor's certificate and the Council shall forthwith without debate proceed to the next item of business. If any such motion has been reached and is under discussion when the certificate is received, the President shall forthwith inform the Council of the Governor's certificate and the Council shall forthwith without further debate proceed to the next item of business.

62. The Chairman of the committee of the whole Chamber shall be the President or the Deputy President or another member appointed by the President in this behalf.

Select committees.

63. (*1*) A select committee shall consist of not more than eleven members.

(*2*) The Minister in charge of the department to which a Bill relates, the member who introduced the Bill and the other members of the select committee shall be named as members in the motion proposing the appointment of the committee.

(*3*) The Chairman of a select committee shall be nominated by the President.

Vote of Chairman.

64. The Chairman of the committee of the whole Chamber or of a select committee shall not vote in the first instance, but shall have and shall exercise a casting vote in the case of an equality of votes.

Proceedings of select committee to be treated as confidential.

65. All proceedings of the committee of the whole Chamber or of a select committee shall be treated as confidential, and its recommendations shall not be disclosed until the report has been made available for the use of each member or has been published in the *Calcutta Gazette*.

Reports.

66. (*1*) When a Bill has been referred to the committee of the whole Chamber or to a select committee, the committee shall make a report thereon, and in the case of a committee of the whole Chamber, it shall not be necessary for a member, other than the Chairman, to sign the report.

(*2*) Reports may be either preliminary or final.

(*3*) The committee shall, in their report, state whether or not, in their opinion the Bill has been so altered as to require re-publication, whether the publication directed by these rules or by the Council has taken place and the date on which the publication has taken place or, where publication in more than one language is ordered, the date on which the publication in each such language has taken place.

(*4*) If any member of a select committee desires to record a minute of dissent on any point, he must sign the majority report, stating that he does so subject to his dissent, and must at the same time hand in his minute.

(*5*) Every such minute of dissent must be confined to a discussion of matter contained in the report, and must be free from personal remarks.

Printing and publication of reports.

67. The Secretary shall cause every report of the committee of the whole Chamber or of a select committee to be printed, and a copy of the report shall be made available for the use of each member. The report, with the amended Bill, shall be published in the *Calcutta Gazette*.

Presentation of report and procedure after presentation.

68. (*1*) Every report of the committee of the whole Chamber or of a select committee on a Bill, shall be presented to the Council by the Chairman.

(*2*) In presenting a report the Chairman shall, if he makes any remarks, confine himself to a brief statement of fact.

(*3*) After the presentation of the final report, the member in charge of the Bill may move—

(*i*) that the Bill as reported be taken into consideration, but any member may object to its being so taken into consideration if a copy of the report has not been available for the use of members for seven days, and such objection shall prevail, unless the President in exercise of his power to suspend this rule allows the report to be taken into consideration; or

(*ii*) in the case of a Bill referred to a select committee that the Bill be re-committed either—

(*a*) without limitation, or

(*b*) with respect to particular clauses or amendments only, or

(*c*) with instructions to the select committee to make some particular or additional provision in the Bill.

(4) If the member in charge of the Bill moves that the Bill be taken into consideration, any member may in the case of a Bill referred to a select committee move as an amendment that the Bill be re-committed.

(5) The period of notice of a motion to take a Bill into consideration under this rule shall be fifteen days, unless the President in exercise of his power to suspend the sub-rule allows the motion to be made at shorter notice.

(d) Consideration and amendment of Bills.

Proposals of amendments.

69. When a motion has been agreed to by the Council that a Bill be taken into consideration, any member may propose an amendment to such Bill.

Notice of amendments.

70. (2) The Secretary shall, if time permits, cause every notice of a proposed amendment to be printed, and a copy shall be made available for the use of each member.

Short notice amendments.

71. On an oral request made by a member at a meeting of the Council, the President, in his discretion, may admit an amendment to a Bill under the consideration of the Council at shorter notice than that prescribed elsewhere in these rules, provided that the question to which such amendment relates shall not be taken into consideration on the day on which the amendment is admitted, unless the President directs otherwise.

Order of amendments.

72. Amendments shall ordinarily be considered in the order of the clauses of the Bill to which they respectively relate.

Submission of Bill clause by clause.

73. Notwithstanding anything in the foregoing rules, it shall be in the discretion of the President when a motion that a Bill be taken into consideration has been carried, to put the Bill, or any part of the Bill, to the Council clause by clause. When this procedure is adopted, the President shall call each clause separately, and, when the amendments relating to it have been dealt with, shall put the question "that this clause, or (as the case may be) this clause as amended, stand part of the Bill."

Passing of Bills.

74. (1) If no amendment is made to the clauses of a Bill after a motion that a Bill be taken into consideration has been agreed to by the Council, a motion that the Bill be passed may be made at once without notice.

(2) If any amendment be made, any member may object to the passing of the Bill at the same meeting; and such objection shall prevail, unless the President in exercise of his powers to suspend this rule allows the motion that the Bill be passed to be made.

(4) If the Bill is thereafter or on any subsequent occasion returned with a message intimating that the Assembly insists on amendments to which the Council is unable to agree, on a motion moved or carried in the Council in such behalf, either—

Reference to select committee.

87. Any member may, after giving seven days' notice or with the consent of the President at shorter notice (if the Bill has not already been referred to a joint committee of both Chambers, but not otherwise) move as an amendment either that the Bill be referred to the committee of the whole Chamber or to a select committee or be circulated for the purpose of eliciting opinion thereon and, if any such motion is carried, the Bill shall be so referred, and the subsequent procedure in regard to Bills originating in the Council shall then apply.

88. If the motion made under rule 85 that the Bill be taken into consideration is carried, the Bill shall be taken into consideration and the provisions of these rules regarding consideration of amendments to Bills (save that the period of notice of amendments shall be seven days) and the subsequent procedure in regard to the passing of Bills originating in the Council shall apply.

Provided that not more than one resolution shall be given such precedence in any one session of the Council.

(*2*) If more than one such requisition is received in respect of any one day, and the consent required by sub-rule (*1*) is obtained thereto, a special ballot shall be held in such manner as the President may direct to determine which of the resolutions specified in such requisitions shall be given precedence on that day.

(*3*) A resolution shall not have precedence under this rule on any day unless the Minister concerned has received at least six days' notice, and the members at least twenty-four hours' notice, from the Secretary, that the resolution will be given precedence on that day:

Dacca, the 5th August 1938.

First Forecast of the Cotton Crops of Bengal, 1938-39.

(*Note*.—On an average of the five years ending 1936-37, the area under the Cotton crops in Bengal has represented some 0·3 per cent. of the total area under Cotton in India.)

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore. As the late crop has not yet been sown, this forecast deals only with the early crop.

Character of the season.—At the sowing season, the weather was fairly favourable. The present condition of the crop is satisfactory on the whole.

Area sown.—The area sown is reported to be 87,379 acres this year as against 93,468 acres (revised) in the corresponding forecast of last year. The decrease in area is due mainly to low price of cotton.

NOTIFICATIONS.

No. 2913P.H.--27th August 1938.--In exercise of the powers conferred by clauses (*n*) and (*p*) of section 138 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), the Governor is pleased to make the following rules for the management of waterworks by district boards except the district board of Darjeeling:—

Rules for the management of waterworks by District Boards.

1. The management of any water-supply system installed by a District Board in any area within its jurisdiction, shall vest in that Board (hereinafter called "the Board") and the Board shall perform the duties prescribed in these rules.

2. The Board shall make adequate provision for the maintenance of its waterworks in proper order and be responsible for the proper application of the amounts to the credit of the waterworks account.

3. The Board shall maintain a separate account of the receipts and expenditure of the waterworks and the Chairman shall, at the end of each month, prepare a statement of the account, which he shall submit to the Board at its next meeting.

4. The Board shall set apart and keep as a separate account a certain percentage of the receipts of the waterworks for defraying the cost of renewal of such parts of the plant as are liable to rapid deterioration.

5. The Board at a meeting shall every month inquire into all matters connected with the water-supply and examine and pass the accounts submitted under rule 3, and shall record that the accounts have been passed in the book of the minutes of the proceedings of the meeting.

6. In all engineering matters connected with the waterworks the Board shall be guided by the advice of the Chief Engineer. The Board shall afford the Chief Engineer all information he may from time to time require, and shall consider and attend to all communications received from him.

7. The Chief Engineer and the inspecting officers of the Engineering Branch of the Public Health Department may, whenever it is desirable, correspond direct with the Superintendent of the Pumping Station in regard to technical matters. Copies of all such letters shall be forwarded to the Chairman of the Board.

8. (*1*) An officer of the Engineering Branch, Public Health Department, shall visit the waterworks not less than once a year, and his report thereon shall be submitted to the Sanitary Board by the Chief Engineer, a copy being forwarded to the Board. The Board shall arrange for the proper inspection of the boilers and pumping machinery not less than twice a year by a qualified Machinery Inspector or firm of Machinery Inspectors who must be approved by the Chief Engineer.

(*2*) The reports of the Inspectors must be submitted—

(*i*) in the case of boilers and pumping machinery worked by steam, in P. H. D. Form No. 6 (Appendix A),

(*ii*) in the case of engines and pumps using oil fuel, in P. H. D. Form No. 6A (Appendix A),

(*iii*) in the case of mechanical filters, in P. H. D Form No. 6B (Appendix A),

to the Chief Engineer:

Provided that in the case of small waterworks the said inspection may, with the consent of the Chief Engineer, be held only once a year.

9. Until all points raised in the reports of the Chief Engineer and the Machinery Inspector have been disposed of, the Board shall submit to the District Magistrate, for transmission to the Chief Engineer, a monthly progress report showing how far effect has been given to the recommendations made in the reports.

10. (*1*) The Board shall cause to be kept at the pumping station—

(*a*) a stock account in P. H. D. Form No. 4 (Appendix A), showing the daily transactions in coal and engine room stores;

(*b*) an engine room log in P. H. D. Form No. 3 (*a*) or 3 (*b*) (Appendix A);

(*c*) a workshop log in P. H. D. Form No. 3 (*c*) (Appendix A);

(*d*) a filter-bed log in P. H. D. Form No. 5 (Appendix A), or a filter log in P. H. D. Form No. 5A (Appendix A);

(*e*) a settling tank log in P. H. D. Form No. 5B (Appendix A); and

(*f*) such other forms as the Chief Engineer may from time to time prescribe.

(*2*) The said form shall be written up daily by the Superintendent of the Pumping Station and shall be available at all times for inspecting officers and visitors appointed under clause (*1*) of rule 15.

11. The Board shall submit to the Chief Engineer not later than the 10th of each month—

(*a*) indicator diagrams from each engine in P. H. D. Form No. 1 (Appendix A) for one day in the preceding month, which must be accompanied by a copy of the engine room log, Form No 3 (Appendix A), for the day on which they are taken;

(*b*) an abstract of work done by the pumping machinery during the preceding month in P. H. D. Form No. 2 (Appendix A),

(*c*) a copy of the filter-bed log or filter log, and settling tank log. P. H. D. Form Nos. 5, 5A and 5B (Appendix A), for the same day of the preceding month as that to which the indicator diagrams, referred to in clause (*a*), apply.

12. The Board shall submit quarterly to the Chief Engineer a return in Public Health Department Form No. 7A (Appendix A) showing the number of house-connections, the total quantity of water consumed through them and the amount realised as payments for water supplied.

13. The Board shall in addition furnish such other information as the Chief Engineer may from time to time require.

14. It shall be the duty of the Board to see that the rules for working settling tanks and slow sand and mechanical filters in waterworks (Appendix B) are properly attended to by the Superintendent of the Pumping Station. If, owing to the design of the works, the rules cannot be conformed to, the matter shall be referred to the Chief Engineer for orders, which will thus take, in these particular matters, the place of the rules in Appendix B.

15. (*1*) The Board shall appoint two of their numbers in rotation to be quarterly visitors of the waterworks.

(*2*) It shall be the duty of these visitors to ascertain by enquiry—

(*a*) whether an efficient supply of water is being given;
(*b*) whether the Superintendent of the Pumping Station and the waterworks establishment are attending to their duties and a proper discipline is being maintained;
(*c*) whether the works, machinery, plant, implements, materials and all other things connected with the waterworks are being properly maintained in an efficient condition;
(*d*) whether these rules are being attended to in all respects; and
(*e*) whether any other matters in connection with the waterworks require attention.

(*3*) The visitors shall report in writing to the Board in meeting the result of their inspection, and a copy of their report, with a copy of any resolution that may be passed thereon by the Board, shall be sent to the Chief Engineer.

16. A visitor's book shall be kept at the pumping station in which the visitor's remarks shall be recorded.

17. An extract of the proceedings relating to the water-supply system at each meeting of the Board shall be forwarded, within a week of the date of the meeting, to the Chief Engineer, who may, if he thinks fit, and shall, if the Board so desire, submit it with his remarks to the Sanitary Board.

18. The chemical and bacteriological analysis of water from each waterworks shall be carried out in the Public Health Laboratory monthly, and as often as the Director of the Public Health Laboratory shall consider necessary, and the results of the analysis shall be communicated by him to the Chairman and shall be considered by the Board at a meeting.

But the analysis of water from the waterworks of the Board having a Public Health Laboratory may be carried out in the laboratory, and the results of the analysis shall be communicated by the Board to the Director of Public Health, Bengal.

19. The Director of the Public Health Laboratory after an inspection of any waterworks by himself or any member of his staff shall forward a copy of the inspection report to the Chief Engineer.

APPENDIX B.

(See rule 14.)

Rules for working settling tanks and slow sand and mechanical filters in waterworks in Bengal.

Settling Tanks.

1. It is important that water drawn from the rivers of Bengal should have as long a settlement as possible before being passed on to slow sand filters, in order that the action of sunlight, the precipitation of suspended matter and the natural tendency to elimination of pathogenic bacteria may have their maximum purifying effect.

2. Settling tanks are worked either on (*a*) to continuous flow, or (*b*) the intermittent system. In the first system, the tanks are kept full, and the water is continually admitted at one end and drawn off from near the surface at the other. In order that this system may be properly used with slow sand filters, the unfiltered water pumps must be worked continuously throughout the 24 hours or the settling tank must be fed from a storage reservoir. When designed on the intermittent system, each tank in turn is filled and then kept full until the tanks filled before it are drawn down; the settled water is then decanted through a floating arm or similar apparatus until the tank is lowered to the lowest draw off level, when it is again filled.

The whole available storage capacity of settling tanks should always be used as far as possible. On the other hand care must be taken in tanks unprovided with fixed overflows not to fill them to a greater depth than they are designed for.

3. When a deposit of from 18 inches to 2 feet of silt has formed at the bottom, the tank should be emptied and cleansed out. This work must always be done in the dry weather and preferably at the end of October or as soon after as possible.

4. In the rains and when there is an excessive amount of suspended matter in the raw water, clarification will generally have to be assisted by the use of a coagulant. The precipitant most commonly used in Bengal waterworks is aluminoferric. This depends for its effective action upon the temporary hardness of the water. If more of the chemical is used than can be decomposed by the carbonates present, it will remain dissolved in the water and will be washed.

Generally speaking, not more than two grains of aluminoferric are required per gallon of water. Aluminoferric and sulphate of aluminum should always be ordered under a proper specification. Samples of each consignment of the precipitant should be sent to the Director of Public Health Laboratories for analysis to see if the samples conform to the specification. His advice will also be necessary from time to time as to the quantity of precipitant to be added to the water.

5. The aluminoferric must be added at the inlet end of the settling tanks. A solution of a fixed strength should be prepared and the rate of flow of the solution ascertained and regulated by experiment in cases where there is no automatic apparatus for its addition. The method of adding the salt in solid form by suspending in a basket is unsatisfactory and should not be adopted.

Slow sand filters.

6. The rate of delivery on to a sand filter is regulated by (*a*) the available head between the settling tanks and the inlet valve and (*b*) the amount the inlet valve is open.

The rate of flow through the filter depends upon (*c*) the resistance of the sand in the filter. In order to overcome this resistance a difference in level forms between the surface of water on the filter-bed and the water in the outlet well. This is called the filtration head. The longer the filter-bed is in operation, the greater becomes the resistance of the sand and consequently a larger filtration head is necessary to force the water through the filter.

The discharge from the outlet well to the clear water reservoir depends on (*d*) the amount the outlet valve is open or in the case of a telescopic outlet the extent to which the bell mouth is lowered.

It is obvious that these factors are mutually interdependent, for more water cannot flow out of a filter than is delivered on to it, nor than can make its way through the sand.

Factors (*a*) and (*c*) continually tend to vary, so (*b*) and (*d*) must also be altered from time to time in order to maintain a constant flow through the filter. In some filters the inlet is controlled by a ball valve which keeps the level of the water on the filters always the same. In this case, the flow through the filter is regulated by (*d*). In all filters the surface of the water on the sand should be always kept as nearly at same level as possible and filtration head regulated by the outlet valve or telescopic weir. The depth of water on the sand should not be less than 2 feet. Gauges measuring to the same datum should be fixed on the wall of the filter and in the outlet well so that the difference in level can be easily measured.

7. Filtration should be carried on continuously and as nearly as possible at the same rate, which should be between 3 or 4 inches vertical an hour. The rate of flow must on no account exceed the latter figure.

Where there is no direct method of measuring the flow of water through a filter such as an outlet gauge notch or a meter, it may be ascertained by closing the inlet valve and leaving the outlet valve open. The fall of the surface of the water in inches at the end of an hour will give the rate of flow per hour.

8. In a new filter or one recently scraped, the filtration head required will be very small but its increase will be rapid. In the usual way, a filter should be scraped when the filtration head reaches 18 inches. In certain cases it may be safe to exceed this limit, but before allowing a greater working head the advice of the Chief Engineer should be obtained.

Filters should not be scraped until it is necessary, for not only does frequent scraping increase the cost of operation but for some time after scraping the efficiency of the filters is reduced.

9. A filter must be scraped by carefully removing the slimy ooze which has formed on the top, together with about ½ inch of sand. The sand removed may subsequently be used again if properly washed

in a sand-washer. In the usual way when the depth of fine sand is reduced to 18 inches it is time to replenish the filter. Before replenishing about two or three inches of sand is to be removed, clean washed sand is then to be added until the original thickness is obtained.

10. If the water filtered has been of a very bad quality or the filter has been mismanaged, or been long in use the whole filter may require to be renewed. In such case the advice of the Chief Engineer, Public Health Department, must be obtained, when full instructions as to the work required will be issued.

11. After a filter-bed has been scraped, replenished or renewed it should, if possible, be charged from below by admitting filtered water very slowly until the surface is about three inches above the sand; the filling can then be completed from above. If there is no arrangement for filling from below, the filling must be very carefully and slowly done from above.

After filling, water should be passed through the filter commencing at the rate not exceeding one inch vertical per hour and run to waste for 24 hours after scraping and 48 hours after replenishing. The rate of filtration should be increased gradually after putting the filter into use. If possible the maximum rate of flow should not be reached for four or five days. After complete renewal the filter must not be put into operation until the Director of Public Health Laboratories has analysed samples of the water and pronounced them safe.

12. Daily records must be kept in the filter-bed log book [P. H. D. Form No. 5 (Appendix A)] of the quantity of water filtered and the filtration head recorded at intervals of three hours throughout the day.

Mechanical filters.

13. For each installation of mechanical filters, rules for working must be obtained from the makers of the plant, but the following points must be attended to in all cases:—

(*i*) The efficiency of the plant depends upon the proper proportioning and correct addition of the coagulant. The actual amount of coagulant required depends on the design of the installation, the type of filter, the quality and hardness of the water and general local conditions. It will vary during different seasons of the year and can be best ascertained by experiment in actual working. Such experiments require scientific supervision and must be carried out under the instructions of the Chief Engineer, Public Health Department, who will when necessary take the advice of the Director of Public Health Laboratories on the subject.

(*ii*) The precipitant generally used is sulphate of alumina and this should be purchased under a proper specification of chemical composition. The precipitant is made up into a strong solution in large vats and added to the raw water by an adjustable apparatus.

The water so treated is then allowed to settle for sufficient time to allow the formation of optimism flock.

In cases where sedimentation continues for a considerable time after the coagulant has been applied, it may be necessary to add a small additional quantity of the chemical to the water immediately before passing it to the filters.

In pressure filters if sulphate of alumina is allowed to stand in the alum pots for any length of time there is a tendency for it to deposit and clog the small pipe leading to the filter inlet. In such cases the use of crystal potash alumina is recommended. If sulphate of alumina is used it is necessary to keep the solution stirred and also to examine the alum pipes to see that the flow is taking place properly. In any properly designed installation means are provided for testing the rate of flow through the alum pipe at any time.

Aluminoferric and ammonia alum are not to be used in mechanical filters.

(*iii*) The rate of filtration should be kept as nearly as possible constant and must not exceed the rate for which the filters had been designed. All filters used on the gravity system are provided with automatic controllers, and these must on no account be tampered with or made to pass more water than intended.

(*iv*) The maximum filtration head permissible varies with different types of plant; it is usually not more than 10 feet. When the maximum head is reached, as shown by the indicator, the filter must be washed.

(*v*) Washing must always be done with filtered water. In the case of a battery of two or more pressure filters, they may be arranged so that one can be washed with filtered water from another. Washing must be continued until the waste water becomes quite clear. After washing, the filtered water must be run to waste for 15 minutes before connecting to the town. All valves operated during the process of washing must be opened and closed slowly.

(*vi*) The addition of coagulant throughout the filtering process is unnecessary. After four hours of filtration with coagulant a sufficiently impervious layer is formed on and in the upper layers of sand to stop the passage of bacteria and filtration can then be carried on for two days or more without the addition of any more alum.

(*vii*) Daily records must be kept in the filter log book [P. H. D. Form No. 5A (Appendix)] of the quantity of water filtered, the amount of sulphate of alumina used, the hours during which filtration has been carried on the filtration head (recorded at intervals of three hours), the length of time taken to wash each filter, and the hour at which it was washed.

NOTIFICATION.

No. 8316L.A.—27th August 1938.—The following report of the Select Committee on the Bengal Money-Lenders (Amendment) Bills, 1937, by Mr. Ahmed Hosain, M.L.A., Maulvi Rajibuddin Tarafdar, M.L.A., and Maulvi Abdul Hakim, M.L.A., is hereby published for general information.

Report of the Select Committee on the Bengal Money-Lenders (Amendment) Bills, 1937, by Mr. Ahmed Hosain, M.L.A., Maulvi Rajibuddin Tarafdar, M.L.A., and Maulvi Abdul Hakim, M.L.A.

We, the members of the Select Committee of the Bengal Legislative Assembly to which the Bengal Money-Lenders (Amendment) Bills, 1937, by Mr. Ahmed Hosain, M.L.A., Maulvi Rajibuddin Tarafdar, M.L.A., and Maulvi Abdul Hakim, M.L.A., were referred by a motion carried in the Bengal Legislative Assembly on the 2nd March, 1938, have the honour to submit this our report.

2. The Bills were published in English in the *Calcutta Gazette* of the 2nd December and 11th November, 1937, respectively.

3 As the Bills have not been altered by us, we do not consider that the Bills require republication.

4. The Committee met for the first time on the 28th May, 1938, in Darjeeling and concluded their sittings in Calcutta on the 26th July, 1938.

5. The Select Committee reports as follows:—

That in view of the decision of the Government to expedite the enactment of a comprehensive Money-Lenders' Act for the Province and in view of the publication of a Government Bill circulated to achieve that end this Select Committee is of opinion that no useful purpose will be served by proceeding with the three private members' Bills which this Committee has been asked to examine. The Committee, therefore, recommends that these three Bills be dropped.

Minute of dissent by Maulvi Md. Israil, M.L.A.

I beg to sign the report of the Select Committee subject to the following note of dissent:—

According to rules 61 and 62 of the Bengal Legislative Assembly Rules and Standing Orders it is quite evident that the Select Committee must scrutinise the provisions of the Bills referred to it and submit a report thereon embodying the additions and alterations suggested and the report of the Select Committee with the amended Bills, shall then be published in the local *official gazette*. The present report of the Select Committee having failed to comply with the aforesaid rules is *ultra vires* and irregular and illegal. The Select Committee, has failed to discharge the duties entrusted to it by the House moreover the Government Bill on the subject in consideration of which the Select Committee recommended for the dropping of the Bills referred it, is clearly hit by section 100, sub-section (*1*) of the Government of India Act, 1935, but from the wording of the above section it appears that the Bills referred to the Committee are immune from such limitation as that section is applicable to the making of laws but not to the amendment of the existing laws.

Minute of dissent by Mr. Ahmed Hosain, M.L.A.

I sign the report of the Select Committee subject to the following note of dissent:—

According to rules 61 and 62 of the Bengal Legislative Assembly Rules and Standing Orders, it is obligatory on the part of the Select Committee to consider the Bill referred to it on merits and to embody its deliberations upon the same, clause by clause, in the form of a report. But in this case, the Committee has chosen, simply to refuse to consider the Bill, in consideration of the fact, that there is the likelihood of a comprehensive Government Bill on the subject being introduced. In this the Select Committee has acted (in our view of the matter), *ultra vires* and in clear contravention of rules as well as the mandate of the House which appointed it.

This action of the Select Committee, to my mind will also have the further effect of putting off some very much needed relief to the poor agricultural debtors which the private member's Bill contained, and which the working of the Money-Lenders Act during these years, has shown to be immediately and urgently necessary. Because the Government Bill has yet to pass through the initial stages involving unavoidable delays, whereas, had the Select Committee reported to the House, upon the Bill referred, the private Bill in all probability would have passed this session

NOTIFICATION.

PART XIA.

Of the copying of documents by means of photography.

Application of this part.

70A. This Part shall apply to those areas only in respect of which a notification is issued by the Local Government under section 70C.

70B. For the purposes of this Part " Photo-Registrar " means any person appointed by the Local Government to perform the duties of Photo-Registrar under this Part.

Documents may be photographed in areas notified by Government.

70C. (*1*) The Local Government may, by notification in the *Calcutta Gazette*, direct that in any district or subdivision specified in the notifications copies of documents admitted to registration under this Act, shall be made by means of photography.

(Clause 4.)

breaking any seals, the thread or ribbon wherewith the pages of the documents are sewn together in order to separate the pages of the documents, and, as soon as the document has been photographed, he shall rebind the document exactly as before and if he has cut the thread or ribbon, shall seal it over the joint with his seal :

Provided that before transmission of the document to the Photo-Registrar, the presenting of the document may require the registering officer to have it copied by hand under section 52 on payment of an additional copying-fee.

(c) There shall then be prepared and preserved the negative and at least one photographic print and to each such negative and print the Photo-Registrar shall affix his signature and seal in token of the exact correspondence of the copy to the original document, as admitted for registration.

(d) One set of such prints arranged in the order of their serial numbers shall be made up into books and sewn or bound together. To each such book the Registrar or Sub-Registrar shall prefix a certificate of the serial numbers it contains, and the books shall then be preserved in the records in such suitable place as the Inspector-General may prescribe.

(2) All words and expressions used in the Act with reference to the making of copies of documents by hand or the entering or filing of documents or memorandum in books provided under section 16 shall, so far as may be necessary, be construed as referring to the making of such copies by means of photography or the entering or filing of documents or memoranda in books made up of copies prepared by means of photography.

(3) Where this Part applies the sections mentioned below shall be deemed to be modified as follows :-

(a) In section 19, the words "and also by a true copy" shall be omitted;

(b) sub-section (4) of section 21 shall be omitted ;

(c) the words "according to the order of its admission" occurring in clause (c) of sub-section (1) of section 52, shall be omitted ;

(d) section 53 be omitted ;

(e) in sub-section (1) of section 60, the words "and page" shall be omitted ;

(f) sub-section (1) of section 61 shall be omitted ;

(g) in sub-section (1) of section 62—

(i) for the word "transcribed" the word "copied" shall be substituted ; and

(ii) for the words and figures "copy referred to in section 19" the words "photograph of the original" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

With the advance of science, photography has provided us with a better method of preparing exact copies of documents than mere transcriptions by hand which leave room for error according to the mental and physical powers of copists by hand or by type-writing or by printing. In India advantage has been taken of this process of preparing photographic facsimilies in the Bombay Presidency.

There is no reason why Bengal should lag behind in the matter. The provisions of the Bill have, therefore, been adapted from the provisions of the Bombay Registration (Amendment) Act of 1930 (Act XVII of 1930).

THE BENGAL JUVENILE SMOKING (AMENDMENT) BILL, 1938.

A

BILL

to amend the Juvenile Smoking Act of 1919.

WHEREAS it is expedient further to amend the Bengal Juvenile Smoking Act, 1919, in the manner hereafter appearing; It is hereby enacted as follows.—

This Act may be called the Bengal Juvenile Smoking Amendment Act, 1938.

1. The sub-sections (*2*) and (*3*) of the Bengal Juvenile Smoking Act of 1919 shall be deleted, in its place the following sub-section as sub-section (*2*) shall be substituted : –

"(*2*) It extends to the whole of Bengal."

2. In section 2 of the said Act after clause (*c*), the following shall be added as clause (*d*). –

"(*d*) 'Public place' means any place to which the public for the time being has access whether on payment or otherwise and includes a railway station and a railway carriage"

3. Section 4 of the said Act be omitted and the following shall be added in the said Act as section 4 :–

"4. Whoever sells or gives or attempts to sell or give to a child apparently under the age of sixteen years any tobacco or cigarette whether for his own use or not, shall be liable on conviction by a Magistrate in the case of first offence to a fine not exceeding ten rupees and in the case of a second offence to a fine not exceeding twenty rupees, and in the case of a third offence or subsequent offences to a fine not exceeding fifty rupees."

4. Section 5 of the said Act shall be omitted and the following shall be added as section 5 and section 6 and the existing section 6 shall be renumbered as section 7 :—

"5. If any boy apparently under the age of sixteen years be found smoking tobacco or cigarette in any public place, it shall be lawful for any chaukidar, dafadar, teacher of a recognised school, or affiliated college, member of a municipal board, member of a district board, member of a union board, Executive Officer and Councillor and Aldermen of Calcutta Corporation, registered medical practitioners, legal practitioners, any municipal or district board officer drawing a monthly salary of not less than Rs. 25 or any Magistrate to seize such tobacco or cigarette and destroy it."

"6. The local Government may confer on any bench of Magistrate invested with the powers of a Magistrate of the second or third class power to try summarily any offence under this Act."

STATEMENT OF OBJECTS AND REASONS.

It is a fact that the Bengal Juvenile Smoking Act of 1919 though still in force has become a dead letter owing to the defects inherent in it. So it is desirable that it should be amended in such way that it may be worked for the benefit of persons concerned. So I propose to give power to all persons enumerated in the proposed section to seize and destroy tobacco.

STATEMENT OF AIMS AND OBJECTS.

The aim and object in introducing this important piece of legislation is to regulate the retail and wholesale prices of articles of merchandise in shops and to save middle class shopkeeper from the evil effects of unhealthy and unrestricted competition in the trade. Unsteady prices and cut-throat methods of under-selling have driven many respectable and flourishing firms and persons out of the market and deprived many a self-respecting and honest citizens of their legitimate livelihood.

Such legislation is as much necessary in the interests of the ordinary citizen of the province as in that of the shopkeeper and the trader. Uncertain prices and higgling mean time lost and tempers frayed, and this loss of time and nervous energy is a definite drain upon the economic resources of the community.

The provoking system of bargaining, dishonest and ambiguous nature of prices ruling in many shops often scare away genuine would-be buyers to the detriment of trade. It entails unnecessary strain on the distributive and allied workers in shops and very often results also in loss of trade and confidence of the buying public. These unbusiness-like methods in trade have also lowered an average shopkeeper in the estimation of foreign buyers and led them to form a low opinion of the Indian character.

It is, therefore, imperative that the State should control the retail and wholesale prices of various commodities and manufactured articles by some sort of legislation to improve the present deplorable conditions prevailing in the general trade of the province.

This piece of legislation is only the first step in the direction of improving the retail and wholesale trade of our province. The fixation of prices in shops will increase and improve the general turn-over of business and thus contribute much to the prosperity and happiness of our business people, particularly the middle-class. It will restore public confidence and do away with the necessity of unhealthy and insensate competition, and by saving the time now lost in higgling, contribute to the economic improvement of the province.

2. In section 36, substitute the word "revision" for the words "new trial".

3. For the present section 38, the following section shall be substituted:—

"38. The High Court in its Appellate Side, for the purpose of satisfying itself that a decree or order made in any case decided by the Small Cause Court was according to law, may call for the case and pass such order with respect thereto as it thinks fit."

STATEMENT OF OBJECTS AND REASONS.

Under the present provision of the law litigants aggrieved by a decision of the Presidency Small Cause Court Judge have a remedy by asking for a new trial by a Full Bench of the Small Cause Court and another by petition for revision by the High Court. In practice the first remedy is often illusory and involves waste of public money. The second is too expensive for an aggrieved but otherwise poor suitor, in view of the fact that the revision petition is entertainable on the Original Side of the High Court where the cost is notoriously high.

The present amendment is sought to abolish the present remedies and bring the law on the same footing as that provided by the Provincial Small Cause Court on the matter.

No. 1681L.C.—29th August 1938.—In pursuance of the provisions of rule 21 of the Bengal Legislative Council Rules, as modified and adapted under section 84(*3*) of the Government of India Act, 1935, the following Bill which was introduced in the Bengal Legislative Council on the 22nd August, 1938, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL ESTATES PARTITION ACT (ACT V OF 1897) AMENDMENT BILL.

WHEREAS it is expedient to further amend the law relating to the Partition of Estates;

It is hereby enacted as follows :—

1. This Act may be called the Estates Partition (Amendment) Act of 1938.

2. It shall come into force on the day of publication in the *Calcutta Gazette*.

3. Insert the words "whether paying revenue or not" after the word "lands" and before the word "which" in line 1, and insert "Revenue-free" after the last word "Revenue" in clause IX of section 3, in page 3 of the Manual.

4. Insert the following after the words "has knowledge" in line 8 of section 19(*1*), page 9 of the Manual :—

"The rent roll is not required to be filled with the application in cases where the record-of-rights have been prepared and finally published"

5. Insert the following after the word "partition" at the end of clause (*c*) in section 50, page 19 of the Manual : -

"But this is not to be done in cases where the record-of-rights have been prepared by the District Settlement Authorities."

6. Insert the word "certified" before the word "Extract" wherever it occurs in clauses (*a*), (*b*), (*c*) and sub-section (2) of section 59, page 22 of the Manual.

7. Insert the following as a new section 93(A) after section 93, page 32 :—

"The Collector shall rectify any mistake or irregularity which may arise in the proceedings at any stage."

STATEMENT OF OBJECTS AND REASONS.

1. There is no provision in the Estates Partition Act for the partition of the lands of the revenue-free estates. The proprietors of the big revenue-free estates suffer much in realising rents and cesses from the common tenants as well as in the payment of cesses. So there should be a provision for the partition of these estates.

2. Rent roll of the estate is not required to be filed with the application of those districts where the record-of-rights has been prepared. Generally it is not done, as the record-of-rights shows all the particulars.

3. In cases where the record-of-rights has been prepared and finally published, the issue of notices upon the proprietors of the adjoining estates is not required, as the boundary of each village has been settled by the Settlement Authorities. It has been found in experience that after the Settlement Operations there exists no boundary dispute between the proprietors of the adjoining estates and they never appear to dispute the possession of the estate under partition, moreover, it takes lots of time to serve the notices on the proprietors of the adjoining estates and it also increases the cost of the estate under partition.

4. If the extracts supplied to the proprietors be not certified, they cannot be used as evidence in any court of law and the proprietors have to take separate certified copies from the original.

5. There is no provision in the whole Act under which the Collector can rectify any mistake or irregularity which may arise in a partition proceeding.

The aim of this Bill is to remove these difficulties and for this purpose this Bill is introduced.

STATEMENT OF OBJECTS AND REASONS.

The practice of taking and giving "Panas" as a consideration for marriage is widely prevalent in Bengal and is proving ruinous to society as the fathers of girls are being rendered paupers to meet the extortionate demands of bridegroom's parties. Public conscience has been deeply stirred by the suicide of Snehalata and other young girls whose fathers were embarrassed owing to their inability to pay the "Barapanas". Many other communities again are becoming extinct as their members cannot marry without paying heavy "Kanyapanas" (bride-money). The Bill seeks to put a stop to both these practices. A similar Bill has been introduced in the Bihar Legislative Council and the present Bill is modelled on that with suitable variations

THE BENGAL PATNI TALUKS REGULATION (AMENDMENT) BILL, 1938.

A
BILL

to amend the Bengal Patni Taluks Regulation, 1819 (Reg. VIII of 1819).

WHEREAS much difficulties have been felt for want of a compulsory mode of registration of a transferee's name in the zamindar's *sherista*;

WHEREAS much hardship have been resulted for want of any provision allowing the division of a *patni* tenure or distribution of rent payable in respect of a *patni* tenure;

WHEREAS it is consonant with justice that in every case of sale of tenures for arrears the sale should be made more public;

AND WHEREAS additional facilities should be given to the defaulting *patnidars* to stay the sale by payment of balance claimed by zamindars;

It is hereby enacted as follows:—

1. This Act may be called the Bengal Patni Taluks Regulation (Amendment) Act, 1938.

2. It extends to the whole of Bengal.

3. In section 5 of the Bengal Patni Taluks Regulation, 1819 (Reg VIII of 1819), hereinafter referred to as the said Regulations, clauses (*2*), (*3*), (*4*) and (*5*) shall be omitted and after clause (*1*) of the said section, the following paragraphs shall be inserted, namely:

"A Registering Officer shall not register any instrument purporting to alienate either in whole or part a *patni* tenure unless there is paid to him an extra amount of transfer fee which is hereby fixed at Rs. 2 per cent. on the *jama* or annual rent of the interest transferred and also a process fee and cost of transmission of the prescribed amount, provided in no case the transfer fee shall be less than one rupee or more than one hundred rupees where the registration of any such instrument is complete, the Registering Officer shall send to the Collector the transfer fee, the process fee and a notice of transfer and registration in the prescribed form and the Collector shall cause the fee to be transmitted to and the notice to be served on the zamindar named there in the notice".

4. Section 6 of the said Regulation shall be omitted and in its place the following section shall be substituted, namely:—

Where a *patni* tenure is sold in execution of a decree other than a decree for arrears of rent due in respect thereof or other than a sale under this Regulation or such a tenure is foreclosed, the court shall not confirm the sale or make a decree or order absolute for the foreclosure unless the prescribed transfer fee, the process fee and the cost of transmission as required under second clause of section 5, have been deposited in court.

Where the sale has been confirmed or a decree or order absolute for the foreclosure has been made, the court shall send to the Collector the transfer fee, the process fee and the cost of transmission and a notice of the sale or final foreclosure in

(Clauses 5—8.)

the prescribed form, and the Collector shall cause the fee to be transmitted to and the notice to be served on the zamindar named in the notice ".

5. Section 7 of the said Regulation shall be omitted and the following section 7 shall be substituted in its place, namely :—

" 7. A division of a *patni* tenure or distribution of rent payable in respect of a *patni* tenure may be affected by—

(*1*) all co-sharer *patnidars* amicably with the consent of the zamindar, or

(*2*) on application before the Collector making the zamindar and other co-sharer *patnidars* parties to the proceeding. On receipt of the application, the Collector shall serve a notice on the zamindar and on the other co-sharer *patnidars* fixing a date for hearing of the application.

On the date so fixed or any other subsequent date the Collector, after hearing the objections, if any, shall allow the application dividing the tenure or distributing the rent unless such division results in the creation of a tenure less than an acre in area or the distribution of rent results in bringing a portion below rupees twenty.

Every order of the Collector directing division of the tenure or distribution of rent shall also direct payment by the applicant to the zamindar a mutation fee being equal to ten per cent of the *jama* falling to the share of the applicant but in no case such fee shall be less than rupee one or more than rupees one hundred.

It is also provided that such division of tenure or distribution of rent shall not in any manner affect the other terms of the engagement with the zamindar and every such divided or distributed portion shall be governed by the provisions of the said Regulation subject to the terms of the original engagement ".

6. In section 8 of the said Regulation at the end of the second clause, insert the following paragraph, namely :—

" The zamindar shall also publish the sale of the tenure by sending in the prescribed form by registered post to all the defaulting *patnidars*, a concise statement containing a specification of the balance due to him and other particulars required to be given in the notice under other paragraphs of this clause. "

7. In section 8 of the said Regulation at the end of the third clause, insert the following :—

" In case of this sale also, it has to be published by a registered post as in case of sale under the second clause of this section ".

8. At the end of section 13, the following clause is to be added, namely :—

" *Fifth.* If during the possession of the person or persons making the advance the tenure is again advertised for sale under this Regulation, it shall be competent to any other tenure holder of the second degree of such tenure or to a person holding an interest in such tenure to stay the sale by paying into court the amount of balance and if this amount was an advance within the meaning

The Bengal Patni Taluks Regulation (Amendment) Bill, 1938.

(Clauses 9—11.)

of this section, such latter person or persons shall be entitled to the benefits and subject to the liabilities mentioned in the fourth clause in spite of the fact that the tenure is in possession of the former person or persons."

9. In section 14, clause (*1*) after the word "lodge", add the following, namely:—

"With the officer conducting the sale in case the zamindar refuses to accept it, whereupon the sale shall be stayed."

10. In section 14A, first clause, sub-clause (*b*), after the word "interest" and before the words "and all charges", the following words shall be inserted, namely:-

"Up to the date of sale".

11. (*i*) In section 15, first clause, second paragraph, from the middle, the following words shall be omitted, namely:—

"Upon furnishing security, if required, the extent of half the *jama* or annual rent be."

(*ii*) In the third paragraph of the said clause from the middle the following words shall be omitted, viz. -

"Notwithstanding that good and substantial security shall have been furnished or tendered on requisition."

(*iii*) The proviso to the said third paragraph shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

Under the present arrangement though alienations and transfers are recognised yet the names of the transferees are not generally entered in the *sherista* of zamindar and as a result the tenure is sold in the name of the original holder and the real owners have to suffer. Sometimes zamindars also refuse to recognise the transferees It is, therefore, proposed by the amendment to provide sure mode of registering transferee's name in the *sherista* of the zamindar on payment of transfer fee at the time of registration of the transfer.

Where there are several co-sharer *patnidars*, if some of them make default, others had to bear the burnt of the whole burden. Sometimes it becomes even difficult for such others to recover that amount by way of contribution.

The necessity of providing further facilities to the defaulting *patnidars* or other interested persons to stay sales is quite evident.

If a concise statement of sale is sent to the defaulting *patnidars*, the sale setting aside cases shall be few and far between.

The proposed amendments aim at removing those and other difficulties.

THE BENGAL LAND ALIENATION BILL, 1938.

WHEREAS it is expedient to restrict the passing of lands from the hands of rayats and under-rayats to non-agriculturists or to agriculturists owning more areas than they can cultivate themselves;

It is enacted as follows:—

1. This Bill shall be called the Bengal Land Alienation Bill of 1938.

2. It shall extend to whole of Bengal and shall apply to lands which come under the purview of the Bengal Tenancy Act, 1885.

3. It shall come into force as soon as it is passed into an Act and receives the assent of the Governor.

4. In this Bill—

(*a*) Rayats and under rayats, proprietors and tenure-holders shall mean rayats and under-rayats, proprietors and tenure-holders as defined in the Bengal Tenancy Act, 1885.

(*b*) Holding shall mean the interest of a rayat or under-rayat as defined in the Bengal Tenancy Act.

(*c*) A non-agriculturist shall mean a person who is not a bona fide tiller of the soil and does not cultivate land with his own hand.

(*d*) A Jotedar means a rayat having more than 100 bighas rayati land.

5. No rayat or under-rayat shall transfer any land of his holding to any proprietor, tenure-holder, Jotedar or non-agriculturist except under the following circumstances:—

(*a*) When the proprietor or tenure-holder is a resident of the village and has not already got more than 100 bighas in his Khas or Borga possession and the area proposed to be purchased will not make the total area after purchase in his possession or Borga possession more than 100 bighas.

(*b*) When the proprietor, tenure-holder or Jotedar requires land for the purpose of homestead or Cutchery and no more than 5 acres is wanted for the purpose.

(*c*) When a non-agriculturist requires land for purposes of homestead and area wanted is not more than 5 acres.

(*b*) When any enterprising man or firm requires land for agriculture or scientific methods or for any public purpose and the Collector of the district certifies as to the bona fides of the purchaser and recommends the sale.

(*e*) When any enterprising man or firm requires land for establishment of factories, etc., and the area is not more than 50 bighas.

(*f*) When the transfer is in favour of a relation within 3 degrees of.

6. No deed of transfer shall be accepted for registration, unless it contains an endorsement from the transferee or his agent to the effect either than the transferee is neither a proprietor, tenure-holder, Jotedar or non-agriculturist, or that he comes under one or other of the exceptions of section 5 (which shall be specified in the endorsement).

The Bengal Land (Alienation) Bill, 1938.

(Clauses 7-10.)

7. If this endorsement is found to the satisfaction of any Civil Court to be false or incorrect within 6 years of the registration of the transfer deed, the transfer shall stand cancelled and the Court holding transfer cancelled shall sell the land transferred, by bid to a bona fide agriculturist or to any other person coming under any of the exceptions specified in section 5 after taking a certificate from the purchaser or his authorised agent to that effect, which if found incorrect within 6 years the holding will again be liable to resale.

8. Out of the sale proceeds half shall go to the person at whose instance the sale was cancelled and the remaining half shall be credited to Government as cost of the proceedings.

9. No Court shall accept the offer of purchase from any bidder if any sale in execution of any decree or in any involuntary sale, without taking a certificate from the purchaser that either he is not a proprietor, tenure-holder, Jotedar or non-agriculturist or he comes under any of the exceptions specified in section 5 and without warning to the proprietor that the purchase will stand cancelled if the endorsement is found incorrect at any time within 6 years of purchase.

10. If in any involuntary sale, the highest offer from bidder who can legally bid according to the provision of this Act falls short of the decretal money or if there be no bid from any proper bidder, the Court shall temporarily make over the land, put to sale to the decree-holder for such period as the Court thinks fit but not exceeding six years for realisation of his dues from the usufruct of the land and in such a case the land shall revert to the judgment-debtor after the period of enjoyment by the decree-holder.

STATEMENT OF OBJECTS AND REASONS.

The Legislature before 1928 did not consider it proper to make the rayati lands transferable as they thought it would be against the interest of the real rayats who being illiterate and improvident will quickly sell off their lands whenever faced with any financial difficulty. In 1928 however the Legislature realised that in spite of no provision in the law about transfer of rayati lands, occupancy holdings were being sold and purchased freely and owing to non-existence of the provision of transfer in the Act, the custom of paying Salami to the landlord for getting recognition of transfer had grown up. The Legislature thought it proper to legalise the custom, though it was a pernicious custom and directly in contravention of articles 55 and 56 of Regulation VIII of 1793, according to which the Salami was a new imposition of the nature of an Abwab. The legalising of the Salami and fixing its rate prevented the abuse of powers by oppressive landlords but it did not prevent passing away of lands to the hand of non-agriculturist or accumulation of too large a quantity of lands in the hands of individual rayats. The Legislature having realised that Salami is an Abwab pure and simple and has failed to serve the so-called purposes of restricting transfer of lands to undesirable persons, have just passed Bill abolishing Salami altogether. It has now become necessary to enact some law which might effectively restrict transfer of lands to non-agriculturists and accumulation of too large a quantity of land in the hand of individual rayats. Provision is therefore made in this Bill making transfer of land to non-agriculturists and rayats having already a large area in possession, illegal except under special circumstances. The provisions of this Bill are far simpler than those of the Punjab Land Alienation Act and it is believed it will not throw much burden of additional work on the Revenue Officers of the Province. But at the same time care has been made to make the provisions effective by laying down that transfer against the provisions of this Act will stand cancelled if they are proved to be such at any time within 6 years of their execution.

THE BENGAL PUBLIC GAMBLING (AMENDMENT) BILL, 1938.

A

BILL

further to amend the law in force in Bengal relating to public gambling.

WHEREAS it is necessary to encourage the business of horse-tending in India and for that purpose to amend the definition of "Gaming";

It is hereby enacted as follows:—

1. This Act may be called the Bengal Public Gambling (Amendment) Act, 1938.

2. This Bill extends to the whole of the Presidency of Bengal, and shall come into force on such date when it receives the assent of the Governor.

3. For the definition of "Gaming" in section 2 of the Bengal Public Gambling (Amendment) Act, 1913, as amended by section 23 of the Bengal Amusement Tax Act of 1922, the following shall be substituted, namely —

"Gaming" includes wagering or betting [except wagering or betting upon a horse-race, when such wagering or betting takes place—

(*a*) on the day on which such race is to be run,

(*b*) in an enclosure which the Steward controlling such race have set apart for the purpose with the sanction of the Local Government, the Local Government may give such sanction under such conditions which shall provide for—

(*1*) the payment of a license fee;

(*2*) the amount of stakes which may be allotted for different kinds of horses;

(*3*) the measure to be taken for the training of persons to become jockeys;

(*4*) the regulation of the constitution of the Club or the Association controlling a horse-race, and which may also provide for such other matters, whether directly or indirectly connected with horse-racing, for which, in the opinion of the Provincial Government, it is necessary or expedient to make provision in the license; and

(*c*) (*1*) with a licensed book-maker, or

(*2*) by means of a totalisator, as defined in section 14 of the Bengal Amusement Tax Act, 1922];

but does not include a lottery.

STATEMENT OF OBJECTS AND REASONS.

The aim and object of this Bill is to put some check on the lakhs of rupees that every year drain out of Bengal in connection with the business of horse-racing and at the same time to encourage race-horse-breeding to grow, as a regular industry in India, to give adequate facilities to Indians for taking up the profession of jockeys, to see a substantial part of the huge income arising to these race-clubs is spent in charitable institutions meant for the Indians and lastly to protect the interest of the Indians, wherever possible, in every sphere of this business.

As matters obtaining now in Bengal, the business of horse-racing is so completely in the iron grip of the non-Indian clubs that one might fairly suspect that these clubs are wielding an unholy monopoly in the trade to the prejudice and detriment of the interests of the Indians. And as a matter of fact they spare no pains to push their own "Country brand" in any and every sphere of the business. They give no encouragement whatsoever, to train up Indians as jockeys Although obliged by statutes to contribute some of their incomes to charities, these clubs, in fact, spend only a petty sum for the charities in which the Indians are concerned and the rest, which means a long figure, goes to the charities in which Indians are not concerned. Again at present race horses are invariably being imported into India every year from foreign countries and the purchasers have no other choice but to pay heavily for them. This is possible only because there are no horses of Indian origin to compete with those imported animals. But if some encouragement is given by these clubs to these country-bred horses to grow up as race horses, there is still a good scope for the growth of a new industry in India, viz , race-horse-breeding This is a very prospective business no doubt In short these are the few grievances against the horse racing business as prevailing in Bengal. And this Bill is drafted to remove them

Notwithstanding anything contained in the Bengal Excise Act of 1909 and the rules made thereunder with regard to the powers and functions of the Collector or any local Licensing Board under the said Act a resolution passed under section 4 or passed under section 5 shall be binding upon the Collector of the district in which the local area is situated.

CHAPTER III.

7. An empowered local body may make rules prescribing—

(Clauses 8—10.)

CHAPTER IV.

FOREIGN LIQUOR.

8. Except as hereinafter provided, the provisions of this Act shall not be applicable to the sale of foreign liquor but when an empowered local body has prescribed a maximum number of licensed shops under section 4 or section 5 it has prohibited the sale of liquor under section 5 and the Local Government is satisfied that the object of such prescription or prohibition is being avoided by the sale of foreign liquor in the local area concerned, the Local Government shall by rule made under the provision of the Bengal Excise Act of 1909 prohibit the Collector from granting a license for the sale of foreign liquor in the said local area except in accordance with the terms of such resolutions as such empowered local body may have passed or may pass in respect of country liquor or with the special sanction of the Local Government.

CHAPTER V.

GENERAL.

9. Any person who commits a breach of any provision of this Act or of any rule made under section 7 shall be punished with a fine which may extend to Rs. 500.

10. Subject to the provisions of this Act the provisions of the Bengal Excise Act of 1909 and the rules made thereunder, shall have full force and effect in the local area of all empowered local bodies.

STATEMENT OF OBJECTS AND REASONS.

The main purpose of this Act Bill is to empower local bodies to regulate sale of liquor and intoxicating drugs within their respective jurisdictions and in case of urgency, to prohibit sale of liquor and intoxicating drugs, but it excludes sale of foreign liquor under the normal circumstances. The demand is modest one while other provinces are foregoing ahead with big scheme of total prohibition, it is desirable that the powers should be taken for the local body to restrict the number of licensed shops and to regulate the sale of liquor and intoxicating drugs. There is no two opinion in the country that the policy of gradual abolition if not total prohibition at a time should be followed for the best interest of the country. The Government of Bengal has already accepted this policy and has set up local Advisory Licensing Board here and there. Hence for these purposes but their workings are not satisfactory, hence the necessity of the proposed Bill. I appeal to every well-wisher of the country to extend his support to me in placing this Act on the Statute Book of Bengal at no distant date.

STATEMENT OF OBJECTS AND REASONS.

The Bengal Food Adulteration Act of 1919 stands in need of amendment in the light of the altered circumstances in the wording of the Act as it stands now various loopholes have been detected. The unscrupulous sellers taking advantage of these defective provisions of the law adopt various devices to frustrate the purpose of the law. Some of the sellers sell large quantities of linseed oil as mustard oil to the ignorant and unsuspecting simple consumers.

Some of them stock and sell adulterated mustard oil but declare the same as mixed oil, not for human consumption but for machineries, soap-making, etc., but in reality they sell it for human consumption. Sometimes dealers previously convicted for selling or manufacturing adulterated food change the names of their firms to avoid punishment prescribed for second or subsequent offence.

Sometimes the wholesale dealers in food refuse to allow the examination of the food to be made or the taking of samples by the health staff on the ground that the keys of the godown are not with him. Some cunning dealers in milk declare their milk as mixed milk in order to avoid the penal provision of the law. In some cases dealers in food intentionally give fictitious names to adulterated mustard oil, ghee, etc., stored by them for sale and refuse to give sample of the same for analysis on the false pleas that these articles are not notified articles. Sometime sellers of food give false names even false fathers' names and addresses to avoid prosecution. In some cases the accused cannot be traced for want of correct names and addresses.

Hence there is necessity of amending the Act in the proposed manner in order to make the Act elastic enough, so that no real offender can escape the punishment prescribed by the law. There is no denying the fact that pure food is one of the most important factors in producing a healthy and wealthy nation. Of recent the percentage of adulterated food has abnormally increased to the deterioration of the health of the people. Instances are not wanting in which case even the members of a family died on taking adulterated food. The provincial Acts of some other provinces contain similar provisions as proposed in this amendment.

SCHEDULE.

(*See section 2.*)

Year.	Number.	Short title.	Extent of repeal.
1	2	3	4
1909	V	The Bengal Excise Act, 1909.	The whole so as it relates to liquor.
1914	VII	The Bengal Excise Amendment Act, 1914.	Ditto.
1922	VII	The Bengal Excise Amendment Act, 1922.	Ditto.
1934	IX	The Bengal Excise Amendment Act, 1934.	Ditto.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to introduce in Bengal the principle of prohibition of the use of liquor as detrimental to the best interests of people residing in it. Instead of amendments of the existing Acts, separate legislation is undertaken for two reasons. Firstly, as prohibition is to be confined for the present to the traffic and use of liquor alone, it will be convenient to have a special Act regulating the matter.

Secondly, it is felt that a momentous measure of this nature should have approval of the legislatures in a more impressive form than of amendments to an Act framed to conform to an entirely different attitude towards the question.

2. The Bill is modelled on the corresponding legislation in regard to prohibition in the Central Provinces which followed the Madras line. It gives Government authority to introduce prohibition in selected areas, with power to extend it to other areas as time and experience enable such extensions to be made. It penalises all traffic and consumption of liquor, but provides—

(i) for the exemption of rectified spirit required for medical, scientific and industrial purposes,

(ii) for the exemption, in regard to the purchase, consumption and possession of liquor, to Europeans and members of the Military, Naval and Air Forces;

(iii) the grant of personal permits to those who in the opinion of Government may be specially exempted and permitted to keep and consume foreign liquor; and

(iv) the issue of licences to clubs and other institutions to possess foreign liquor and issue it to its members.

These concessions will be made only in favour of those who by long habit cannot dispense with the use of foreign liquor and who are not likely in the opinion of the licensing authority to abuse them.

3. The Bill makes provisions not only for the effective prevention, detection, investigation and prosecution of offences against the Act but also for the collaboration of anti-drink committees and honorary workers with the officers charged with the duty of controlling the administration of the Act.

NOTIFICATION.

No. 4699L.C.—29th August 1938. — In pursuance of the provisions of rule 21 of the Bengal Legislative Council Rules, as modified and adapted under section 84(3) of the Government of India Act, 1935, the following Bill which was introduced in the Bengal Legislative Council on the 22nd August, 1938, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL SUPPRESSION OF IMMORAL TRAFFIC ACT, 1933, AMENDMENT BILL, 1938.

A

BILL

to amend the Bengal Suppression of Immoral Traffic Act, 1933.

WHEREAS it is expedient further to amend the Bengal Suppression of Immoral Traffic Act, 1933, in the manner hereinafter appearing, It is hereby enacted as follows.—

This Act may be called the Bengal Suppression of Immoral Traffic Amendment Act, 1938

1. In the preamble of the Bengal Suppression of Immoral Traffic Act, 1933, hereinafter to be called the said Act in the second line after the words "Suppression of" the words "brothels and" shall be added.

2. In section 3 of the said Act regarding definition of brothel, in the fourth line after the word "prostitution", the words "for gain of any other persons" shall be omitted.

3. After section 6 of the said Act the following clause shall be inserted as section 6A -

6A (*1*) The Chief Executive Officer in case of the Calcutta Corporation or the Commissioners of any municipality in Bengal may at any time cause a notice to be served upon any person, who occupies or manages or acts or assists in the management of, or upon any women who resides in, uses or frequents any house, room or place in the city of Calcutta or in any municipal area of Bengal in which the business of a common prostitute is carried on, requiring such person or women after a date to be mentioned in the notice, which shall not be less than 15 days from the date of notice, not to reside in, use or frequent any street or place specified in the notice, or directing such person or women after a date to be mentioned and fixed as aforesaid to remove himself or herself to such place whether within or without the city of Calcutta or any municipal area of Bengal within such time as the Chief Executive Officer in case of the Calcutta Corporation or the Commissioners of any municipality prescribe.

(*2*) If any person or woman so directed under sub-section (*1*) fails or refuses to remove himself or herself as directed within the time specified, the Commissioner of Police in case of the city of Calcutta or the Superintendent of Police in case of any other municipal area, shall cause such person or woman to be arrested and removed in police custody to the place prescribed.

(*3*) Any person on whom a notice under this section shall have been served, disobeying the requisition therein contained shall be punished with imprisonment which may extend (*a*) in the case of first offence to one month and (*b*) in the case of a second offence or subsequent offence to three months.

(*4*) Whoever within two years from the date of his or her removal under the provision of this section returns to any place within the city of Calcutta or within any municipal area, without permission in writing of the Chief Executive Officer in case of the city of Calcutta or without the permission in writing of Chairman of any municipality shall be punished with imprisonment for a term which may extend to two years or with a fine of Rs. 500 or with both.

STATEMENT OF OBJECTS AND REASONS.

There are no two opinion in this matter that the prostitution should be regulated in the interest of public good. As the law stands at present, the municipal bodies have got practically very little power in this respect. The proposed 6 A (1) to (4) are proposed to be added to the Act in question with a view to give necessary power to localise and regulate this necessary evil in municipal area. The section 9, Bombay Prevention of Prostitution Act of 1923, contains similar provisions with some slight modification. In the light of experience slight change in the definition of brothel is proposed.

1934 .	VII	The Bengal Criminal Law Amendment Act, 1934, being an Act to supplement the Criminal Law in Bengal	Ditto.

STATEMENT OF OBJECTS AND REASONS.

We are supposed to have been given a constitution which will lead us to responsible Government. If the provinces have been given Provincial Autonomy, that Autonomy implies the rights of all citizens and specially of minorities to express their opinion freely and the recognition of their fundamental rights to freedom of person and property and the right to free Association. At present there exist in the Statute Book of this province laws as shown in the Schedule which are inconsistent with the fundamental rights of citizens. Most of the enactments embody provisions of temporary Ordinances which were issued by His Excellency the Governor General for dealing with the non-co-operation movement. They were never intended to be permanent measures but they have now been placed permanently in the Statute Book. The Bengal Criminal Law Amendment Acts have been used for purposes of detaining prisoners without trial for indefinite periods without any charge and without the possibility of a resort to courts for writ of Habeas Corpus. They are special measures providing special procedure and methods of speedy trial and with Special Magistrates, which may be suited to a country which is given over to military rule. Bengal is now in a perfectly normal condition. Even the recent great jute strike did not necessitate use of any of the provisions of the Bengal Public Security Act or the other Acts in the Schedule. There is now no terrorism for the Suppression of the Terrorist Outrages Act to remain in the Statute Book.

To meet all cases of violence and for the legitimate purposes of preventing dangers to human life or serious disturbance of public tranquillity, ordinary laws of the land are quite sufficient for the purpose. Moreover there are in the Statute Book some repressive laws framed and passed by the Indian Legislature applicable to whole of India, which unfortunately we cannot touch.

For many years past, there has been strong agitation for repeal of various repressive laws and the issue was directly placed before the electorate by groups of political parties some of which have been returned to power and some of which have been returned as the largest single party in the Legislatures with mandate amongst other things for making strenuous attempts to repeal the repressive laws.

No extraordinary measure is now necessary. Executive should never be in possession of more power than what the situation demands. The enactments sought to be repealed are all extraordinary measures which give extraordinary powers to the executive. It is necessary that those measures should not be allowed to hand as "Democles Sword" over the heads of the people. The only way to remove the least suspicion that these measures might be used by the executive to throttle the opposition in the country will be to remove them from the Statute Book. Parliamentary Government requires that the opposition should be able to criticize freely not merely inside but outside the Legislatures also, the Ministerial party in power and if possible to create disaffection against it and dislodge it from power. There should be a clear recognition of the fundamental rights of the citizens to ordinary freedom of persons and freedom of association and freedom of expression of public opinion where it does not come in conflict with the lives of the citizens or the tranquillity of the state to preserve which the ordinary laws of the land give ample powers to the executive.

It is high time, these laws are removed from the Statute Book.

Hence the measure.

Resolution on the Reports of the Sanitary Board and of the Chief Engineer, Public Health Department, for the year 1937.

GOVERNMENT OF BENGAL.

Department of Public Health and Local Self-Government.

Public Health.

RESOLUTION No 2950P.H

Calcutta, the 30th August 1938

Read the Reports of the Sanitary Board and of the Chief Engineer, Public Health Department, for the year 1937

Improvement in the financial condition of the Province enabled Government to revert to the policy of making grants towards water-supply, drainage and sewerage schemes Although, in the absence of any matured schemes no part of the provision made for this purpose was actually availed of by local bodies during the year, the revival of the grants resulted in definite encouragement to local bodies to undertake sanitary engineering schemes

The total expenditure on water supply, drainage and sewerage schemes recorded a further rise during the year The expenditure on waterworks amounted to Rs 7 [illegible]26 and that on sewerage to Rs 1 52 027 as against Rs [illegible]70,172 and Rs [illegible]649 respectively in the previous year

Sketch projects for schemes estimated to cost Rs 28,04,2[illegible]0, detailed projects to the estimated value of Rs 12 2[illegible]298 and detailed estimates and plans for miscellaneous works amounting to Rs [illegible]1,268 were drawn up during the year under review Investigation and preparation of sanitary engineering schemes may thus be said to have made good progress

The Chief Engineer Public Health Department reports that all the six municipal towns which have recently constructed waterwork have adopted the decentralised storage system to which reference has been made in paragraph 10 of the report

In order that all work of water-supply for domestic purposes as well as all sanitary and drainage projects in the rural areas may receive the necessary amount of expert supervision, the Chief Engineer, Public Health Department has been appointed Inspector of local works for this purpose All tube well projects proposed to be financed from the Government of India grants for rural uplift were, under orders of Government, referred to the Chief Engineer for previous approval After examining the scheme, the Chief Engineer gave suitable instructions for sinking and maintenance in each case.

In the last paragraph of his report the Chief Engineer has alluded to the advance which has been made in the matter of converting indifferent tube-well water into first class drinking water by treating the water according to a number of comparatively inexp[illegible]

The department continued to render valuable [illegible] municipal bodies and other local authorities by [illegible] advice and supervision and the local bodies, on [illegible]le, readily co operated with the department

The Sanitary Board composed of 16 me[illegible]s in the previous year held four meetings during the year and [illegible]ined various engineering and public health schemes before for[illegible]ng them to Government The Board also reviewed the inspectio[illegible]rts of departmental officers and gave useful advice A Sub-Comm[illegible] was appointed by the Board during the year under review to in[illegible]gate as to whether the introduction of water supply in towns withou[illegible]ovision of effective drainage had led to an increase in malaria and [illegible]sider what steps should be taken if the data obtained indicate[illegible]ppreciable rise in the incidence of malaria in such cases.

The Minister desires to express his appreciati[illegible] assistance given to Government by the members of the [illegible]ry during the year under review

The Minister is glad to note that the staff of the Public Health Department ably led by Mr Griffin, the Chief Engineer, carried on their duties satisfactorily during the year under review.

G. S. DUTT,

Secy. to the Govt. of Bengal.

S. P. GHOSH, *District Magistrate.*

NOTE OF BELGIAN GOVERNMENT REGARDING REGULATIONS AND FORMALITIES TO BE OBSERVED BY FOREIGNERS INTENDING TO SETTLE IN THE KINGDOM OF BELGIUM.

Attention of the public is hereby drawn to the fact that foreigners desirous of settling permanently in Belgium must first provide themselves with the documents prescribed by the International Agreements (identity card, passport, visa). These Agreements are based on the principle of the strictest reciprocity.

To admit that a foreigner may enter Belgium with impunity in contravention of these Agreements, is to abolish at once the International Agreements, to the sole benefit of foreigners, without equal facilities for the Belgian Nationals who shall continue to be bound by these Agreements

Strict instructions have been issued to the Police and the Customs officers in order to prevent foreigners from entering Belgium, who without being in possession of the necessary papers try to cross the Belgian boundaries.

In order to encourage tourism and trade, the Belgian Consulates have been empowered to grant special touristic or business visas.

It has come to the knowledge of the Belgian Authorities that foreigners coming to Belgium covered by such visas, do not leave the country on the expiry of such visas and try to settle permanently in the country.

This attitude is inadmissible and the Belgian Government shall not tolerate foreigners who thus deliberately violate the rules and regulations in force and aggravate the economic situation of the country.

Foreigners who wish to settle in Belgium with a view to practise a trade, carry on a business or to be engaged in manual labour, have to apply to the Belgian Consulates for information regarding the formalities, to be complied with by them in order to be granted permission to settle in the country.

The applications for "permits de sejour" in Belgium, submitted in due form, are to be considered by the "Surete publique Belge", who will examine them with care in order to safeguard national economy and public peace.

NOTICE.

A competitive examination for direct appointment to the Bengal Civil Service (Executive), and the Bengal Junior Civil Service will be held in Calcutta in February 1939 in accordance with Rule IX of the Bengal Provincial Services Recruitment Rules, published in notification No. 7183A., dated the 22nd May 1930.

2. *Vacancies.*—The number of vacancies to be filled on the result of this examination will be as follows:—

Bengal Civil Service (Executive)	7
Bengal Junior Civil Service	42
Upper Division of Secretariat clerical service	6

It is open to Government to fill from this examination any additional vacancies which may occur in these services or in the Bengal Police Service, the Bengal Excise Service, or the Bengal Junior Excise Service up to the date of the examination or within such period thereafter as Government may think fit to prescribe.

Each candidate will be required to specify in his application the service or services for which he desires to compete, placing them in the order of his preference, and the choice thus indicated will be final. Appointments will be assigned to successful competitors with due consideration to their choice and the number of vacancies in the services.

3. **Qualifications.**—The indispensable qualifications of a candidate are—

(*i*) that he is a native of Bengal or has a permanent domicile within the Presidency of Bengal;

(*ii*) that he is a natural born subject of His Majesty, or of an Indian State in respect of whom the Governor-General in Council has made a declaration under section 262 of the Government of India Act, 1935;

(*iii*) that he shall have attained the age of 22 and shall not have attained the age of 25 on the 1st October, 1938.

(*iv*) that he is a graduate of a recognised University;

(*v*) that he is of good character; and

(*vi*) that he is of sound health, good physique, active habits and free from organic defects or bodily infirmity.

Along with his application every candidate shall submit proof of his age as explained in the form of application and certificates, written not more than one year prior to the date of his application, from two responsible persons unconnected with his College or University, and not related to him, testifying to his private character and stating that he is a native of or has a permanent domicile within the Province of Bengal. The age limits can in no case be relaxed.

Copies of the certificates attested by the nominating authorities or by responsible persons may be submitted.

4. **Applications Method of submission of fee, etc.**—(*i*) A person desiring to be admitted to the examination shall apply before the 15th November 1938 to the head of the college from which he passed his examination for the degree of Bachelor of Arts, Science, Commerce, etc. A candidate who passed the examination as a non-collegiate student shall send in his application to the Registrar, Calcutta University, together with a certificate of character signed by the Principal of his college if he was connected with one, and by the Magistrate of the district in which he is resident in other cases, candidates from the Dacca University shall apply to the Registrar, Dacca University. All other candidates (not included in the previously mentioned categories) shall apply to the Director of Public Instruction, Bengal, Writers' Buildings, Calcutta:

Provided that in no case shall a candidate apply to more than one of these authorities, and that such applications shall always be made through their Durbars by persons resident in a State in India.

(*ii*) Applications shall be made, in the form shown in Schedule I, copies of which may be obtained from the heads of Colleges, the Registrars of the Calcutta and Dacca Universities, and the Director of Public Instruction, Bengal.

(*iii*) No application will be taken into consideration by the nominating authority unless it is accompanied by a chalan showing payment into a Government treasury in Bengal of the sum of Rs. 5. This payment is obligatory whether such application is subsequently rejected or not and no claim for a refund of this fee will be entertained. *Applications stamped with postage stamps will not be accepted.*

(*iv*) No allegation that an application form or letter respecting such form, has been lost or delayed in the post will be considered unless the person making such allegation produces a Post Office registration receipt or certificate of posting. Candidates who delay their applications until a late date will do so at their own risk.

5. **Nomination.**—The heads of colleges, the Registrars of the Calcutta and Dacca Universities and the Director of Public Instruction, Bengal, shall forward to the Secretary, Public Service

Commission, Bengal, before the **25th November 1938**, the applications of candidates nominated in accordance with the allotment of nominations shown in Schedule II and shall certify the moral character, of each candidate so nominated. The application of non-collegiate students nominated by the Registrar of the Calcutta University should be supported by the character certificates mentioned in paragraph 3 above In making these nominations, due regard should be paid to the desirability of different classes and communities being represented in the public service. Care should be taken to nominate only such candidates as are likely to pass the medical examination since experience shows that a considerable number of candidates successful in the literary examination fail to pass the medical test.

6. **Selection certificates.** The Public Service Commission will issue certificates of selection to such of the nominated candidates, not exceeding 350 in all, as they consider, qualified to appear at the examination The selection or rejection of a candidate by the Commission shall be final, and no candidate shall be admitted to the examination unless he holds such a certificate:

In making their choice the Public Service Commission will give all possible consideration to the cases of candidates of the minority communities and the backward classes and shall call for further nominations from the heads of colleges or Commissioners of Divisions if the number of selected Muhammadan candidates does not reach 45 per cent of the total number selected.

7. **Particulars of candidates.** The Public Service Commission may require such further proof or particulars from the candidates as they may consider necessary, and may make enquiries regarding their character and domicile

8 **Examination fee and time-table.** Every candidate to whom a certificate of selection has been issued will, within a week from the date of its receipt, deposit into a Government treasury in Bengal a sum of Rs. 50 as examination fee and forward the receipt for the same to the Secretary, Public Service Commission, Bengal. No part of the fee will be returnable to a candidate Delay in this respect may render a candidate's name liable to removal from the list of examinees On complying with this requirement, the candidates will receive from the Secretary a time-table for the examination. The examination will commence on the 13th February 1939, and will be held at the Town Hall and the Presidency College, Calcutta

9. **Canvassing.** Any attempt on the part of a candidate to enlist support for his application through persons of influence or officials of Government will disqualify him for appointment. Spontaneous recommendations from persons interested in the candidates, or otherwise known to them, will be disregarded.

10 **Ineligibility of Government servants.** No person holding a substantive appointment in Government service or an appointment on probation against a substantive vacancy under Government will ordinarily be eligible to appear at the competitive examination. Persons holding purely temporary posts under Government should submit their applications in the manner prescribed in paragraph 4 above.

11. **Syllabus of examination and marks.** The examinations will be held in the subjects and according to the syllabus shown in Schedule III which also indicates the numerical value to be attached to each paper at the examination

As the possession of a knowledge of a provincial vernacular is an essential condition of appointment, candidates, whose ordinary spoken and written language is not Bongali, must take up translation from English into one of the provincial vernaculars named below: —

(*i*) Bengali,	(*iii*) Urdu,
(*ii*) Hindi,	(*iv*) Nepali,

and *vice versa* in the compulsory paper Successful candidates, however, who have offered any language other than Bengali in that paper and are appointed to a service for which there is a Departmental Examination, will be required to pass completely the Departmental Examinations in Bengali within two years of the date of their appointment to the service.

12. **Medical Examination.** As soon as the result of the examinations have been declared, a proportion of the candidates who have qualified will be called upon to appear before a Medical Board for a certificate of their fitness for Government service in form A of Schedule IV of the Bengal Provincial Services Recruitment Rules An order to appear before the Medical Board must not however be understood to mean that the candidate, if found fit, will necessarily receive an appointment as the number of candidates who will be summoned for medical examination will be slightly in excess of the total number of vacancies, and the question of his appointment will depend upon the results of the medical examination taken as a whole. The regulations governing the physical examination of candidates are set forth in Schedule IV of the Bengal Provincial Services Recruitment Rules and intending candidates are advised before they apply for admission to the examination to satisfy themselves that they are likely to qualify as physically fit under those regulations, for experience has shown that a considerable number of the candidates at the competitive examinations are subsequently rejected by the Medical Board as unfit.

F. AHMAD,

Secretary, Public Service Commission, Bengal.

The 8th September 1938.

SCHEDULE I.

The age of a candidate as recorded on entering his University is regarded as correct unless there is a proof to the contrary. If a candidate claims that his age is other than as so recorded, he must submit with his application the evidence on which he bases his claim. In such a case the Public Service Commission, Bengal, will require among other evidence a satisfactory explanation of the circumstances in which a wrong age was recorded at the time of entry into the University. They will also require a statement of any attempts made by the candidate to have the University record amended and of the results of such attempts. The statement of age must tally with the statement of age made in any previous application of this nature and will be deemed absolutely final. No revision of such a declaration will be allowed at a later period for any purpose whatever.

7. Every candidate must submit with his application a chalan showing payment into a Government treasury in Bengal of the sum of Rs. 5. Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 8th August, 1938:—

L. A. BILL No. 15 OF 1938.

A Bill further to amend the Indian Aircraft Act, 1934.

WHEREAS it is expedient further to amend the Indian Aircraft Act, 1934, for the purpose hereinafter appearing; It is hereby enacted as follows:— XXII of 1934.

Short title.

1. This Act may be called the Indian Aircraft (Amendment) Act, 1938.

Insertion of new section 8B in Act XXII of 1934.

2. After section 8A of the Indian Aircraft Act, 1934 (hereinafter referred to as the said Act), the following section shall be inserted, namely:— XXII of 1934.

Emergency powers for protecting the public health.

"8B. (*1*) If the Central Government is satisfied that India or any part thereof is visited by or threatened with an outbreak of any dangerous epidemic disease, and that the ordinary provisions of the law for the time being in force are insufficient for the prevention of danger arising to the public health through the introduction or spread of the disease by the agency of aircraft, the Central Government may take such measures as it deems necessary to prevent the outbreak of such disease or the spread thereof.

(*2*) In any such case the Central Government may, without prejudice to the powers conferred by section 8A, by notification in the official Gazette, make such temporary rules with respect to aircraft and persons travelling or

things carried therein and aerodromes as it deems necessary in the circumstances; and such rules may provide for the recovery of any costs incurred in connection with any measures taken under sub-section (*1*) and for the levy of fees in connection with any sanitary precaution enjoined or certificate required by the rules made under this sub-section.

(*3*) Notwithstanding anything contained in section 14, the power to make rules under sub-section (*2*) shall not be subject to the condition of the rules being made after previous publication, but such rules shall not unless specially continued by order of the Central Government remain in force for more than three months at any one time."

Amendment of section 10, Act XXII of 1934.

3. In section 10 of the said Act, for the words, figure and letter "or section 8A" the words, figures and letters "section 8A or section 8B" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

Section 2 of the Epidemic Diseases Act (No. III of 1897) till 1st April, 1937 empowered the Governor General in Council, when he was satisfied that India or any part of it was threatened with an outbreak of any dangerous epidemic disease and the ordinary provisions of the law for the time being in force were insufficient, to make or require or empower any person to take such measures and, by public notice, prescribe such temporary regulations as he deemed necessary. This power was used in connection with the danger of epidemic following the Quetta Earthquake and later in 1936 in connection with the danger of entry of Yellow Fever *via* aeroplanes to Karachi.

2. As a result of adaptations necessary in view of the introduction of the Government of India Act, 1935, this power has been removed from the Governor General in Council and located in the Provincial Government, for the province.

3. The Indian Aircraft Act contains a provision empowering the Central Government to make rules for the prevention of danger arising to public health by the introduction or spread of disease from aircraft and for the prevention of the conveyance of infection or contagion by aircraft. This rule-making power, however, is subject to the condition of previous publication for three months and, therefore, affords no remedy against an emergent danger requiring immediate action.

4. The Central Government is left, therefore, with no power of emergent regulation in a case in which the existence of such power is an important provision in the protection of India against the introduction of dangerous disease. The Bill seeks to remedy this by empowering the Central Government to take such special measures as may be necessary and to make temporary rules for a period not exceeding three months at any one time when there is danger of dangerous epidemic diseases being brought into India by aircraft.

Reports of the Commissioners of Divisions on the working of the union boards during 1936-37.

The total number of union boards in the Presidency rose from 4,810 to 4,895 during the year under review. Of the 85 new boards which came into existence during the year, no fewer than 40 were established in the Midnapore district, to which the provisions of the Village Self-Government Act had been re-introduced in the preceding year; 27 were established in the Cox's Bazar subdivision of the Chittagong district, 15 in the Diamond Harbour subdivision of the district of the 24-Parganas, and one each in the districts of Faridpur, Bakarganj and Bogra. Two union boards, viz., one in the district of Malda and another in Noakhali, were abolished. One union board in the district of Murshidabad was split up into two boards and a union board in the Pabna district was also similarly split up into two.

2. **Franchise.**—The number of voters of union boards increased from 3,478,000 to 3,855,000 owing, chiefly, to the widening of the franchise under the amended Village Self-Government Act and to the establishment of the new boards mentioned above. The increase was most marked in the Dacca and Rajshahi Divisions where the number of voters rose by nearly 175,000 and 94,000, respectively. In the Chittagong Division, on the other hand, the number of voters suffered a decrease of 7,711, for which no explanation has been furnished.

The total number of members of union boards increased from 43,043 to 43,870, comprising 19,364 Hindus, 24,227 Muhammadans, and 279 belonging to other communities. The membership of the union boards consisted of 850 officials and 43,020 non-officials, as compared with 769 and 42,274, respectively in the preceding year.

Elections, where they were held, generally passed off smoothly and evoked considerable interest. A keen spirit of rivalry was displayed at the time of the elections, resulting in some cases in the institution of election disputes before the District Magistrates for setting aside the elections.

3. **Finance.**—The total income of union boards, excluding opening balances, rose from Rs. 93·96 lakhs to Rs. 98·03 lakhs during the year under review. The receipts from the union rate amounted to Rs. 73·12 lakhs, of which a sum of Rs. 15·31 lakhs was derived from rates imposed under section 37 (*b*) of the Village Self-Government Act and Rs. 57·81 lakhs from the chaukidari rate, against Rs. 11·84 lakhs and Rs. 58·20 lakhs, respectively, in the preceding year. The other important item of receipts of union boards were Rs. 2·30 lakhs from pounds and ferries, Rs. 2·48 lakhs as rents of chaukidari chakran lands, Rs. 2·88 lakhs from fees and fines realised by union courts and benches, and Rs. 1·84 lakhs and Rs. 3·35 lakhs, respectively, from grants made by the district boards under sections 33 and 45 of the Village Self-Government Act, as compared with Rs. 1·64 lakhs and Rs. 3·20 lakhs, respectively, in the preceding year. A sum of Rs. 1·79 lakhs was received by the union boards mainly out of the provincial grants for rural water-supply and anti-malarial works placed at the disposal of the District Magistrates and the district boards, while a further sum of Rs. 2·37 lakhs was received as contributions from other sources.

The total expenditure of union boards rose from Rs. 94·31 lakhs to Rs. 96·67 lakhs, of which Rs. 49·02 lakhs, or about 50·7 per cent., was spent on the salaries and equipment of chaukidars and dafadars. Out of the expenditure incurred by the boards on works of public utility during the year under review, a sum of Rs. 8·48 lakhs was devoted to water-supply, of which Rs. 7·55 lakhs

represented original works; Rs. 6·66 lakhs was spent on the construction and maintenance of village roads; Rs. 2·66 lakhs on drainage, conservancy and other sanitary measures; Rs. 3·09 lakhs on primary education and Rs. 2·60 lakhs on medical relief. The most noticeable increases in the expenditure on works of public utility during the year were Rs. 69,000 on medical relief, Rs. 65,000 on water-supply, Rs. 23,000 on sanitation, and Rs. 18,000 on primary education.

The accounts of the union boards were audited, as usual, by the Circle Officers but no case of serious irregularity or defalcation was reported.

4. **Activities of union boards.**—(*i*) *Water-supply.*—The total expenditure on water-supply by union boards rose from Rs. 7·83 lakhs to Rs. 8·48 lakhs. This year also the union boards of the Burdwan district showed a very laudable spirit of co-operation with the district board in the matter of improvement of water-supply in rural areas and spent a sum of Rs. 49,807 for this purpose, the major portion of the expenditure being incurred in sinking tube-wells. One third of the cost of sinking the wells was borne by the union boards and grants equivalent to two thirds of the cost were made by the district boards. The union boards in Hooghly spent a sum of Rs. 68,663 on water-supply and thus practically maintained their standard of expenditure of the preceding year under this head. Several boards sank tube-wells entirely out of their own funds. The main problem, so far as tube-wells are concerned, is that of their maintenance. It is reported that suitable steps have been taken by the district boards in regard to this matter.

The union boards in Mymensingh and Dacca again spent the largest amounts on water-supply, viz., Rs. 1,03,000 and Rs. 1,02,000, respectively, as compared with Rs. 75,000 and Rs. 82,000, respectively, in the preceding year. The other districts with noticeably large expenditure on water-supply by union boards were Faridpur (Rs. 66,000) Tippera (Rs. 61,000), Rangpur (Rs. 44,000), Pabna (Rs. 34,000) and Dinajpur (Rs. 32,000). The union boards in Tippera are reported to have taken a very active interest in solving the problem of water-supply and to have sunk a large number of tube-wells during the year under review, while a substantial portion of the income of the union boards of the Rajshahi Division was devoted to this object.

(*ii*) *Communications.*—The total amount spent by the union boards on the construction and maintenance of rural communications increased from Rs. 6·56 lakhs to Rs. 6·66 lakhs. As in the previous years, the union boards of Bakarganj spent the largest amount under this head, viz., Rs. 74,000, of which Rs. 48,000 represented original works; the next largest figures were attained by Mymensingh, Tippera and Faridpur with an expenditure of Rs. 58,000, Rs. 49,000 and Rs. 43,000, respectively.

The union boards of the Chittagong district are reported to have paid commendable attention to the improvement of village roads and to have taken steps to construct a few good roads according to a three-year plan instead of spending money on petty repairs to a large number of roads. The Chandkhana union board in the Nilphamari subdivision of the Rangpur district completed the construction of a brickbuilt bridge during the year.

(*iii*) *Public health.*—The total amount spent by the union boards on sanitation, including drainage and conservancy, rose from Rs. 2·38 lakhs to Rs. 2·66 lakhs. The union boards of the Burdwan and Birbhum district spent Rs. 13,300 and Rs. 12,700, respectively, on conservancy and other sanitary measures, while those of Howrah spent about Rs. 6,000 on drainage and Rs. 9,600 on conservancy and other sanitary measures. A sum of Rs. 13,200 was spent by the union boards of Jessore for the improvement of sanitation and conservancy; and the union boards of Dacca and Dinajpur spent Rs. 12,000 and Rs. 11,500, respectively, for this purpose. Anti-malarial work was carried on through the agency of 36 union boards in the district of Jessore and a total sum of Rs. 2,850 was paid to them by the district board, out of which Rs. 1,900 was contributed by Government. Measures for the prevention of malaria were also undertaken by a large number of union boards in the Rangpur and Pabna districts. A number of union boards in Bogra made arrangements for free distribution of quinine during the malaria season.

The removal of water-hyacinth engaged the attention of a number of union boards, particularly in the Tippera district where useful work was done for the eradication of the pest. Some union boards in the Satkhira subdivision of the Khulna district cleared a portion of the Kabodak river of water-hyacinth and received monetary help from the district board for this purpose.

A number of union boards maintained regular conservancy arrangements at their respective headquarters, the most prominent among them being Naogaon and Charghat in the Rajshahi district; Nilphamari, Saidpur and Kurigram in Rangpur; Sonatala, Jaipurhat and Santahar in Bogra; Ishurdi and Ullapara in Pabna and Siliguri in Darjeeling. The union boards at Naogaon and Siliguri are reported to have maintained a high standard of conservancy service, similar to that in the municipal area, and to have spent Rs. 3,797 and Rs. 3,369 respectively, for this purpose. A conservancy system was started jointly by the union boards of Patiya and Suchakradandi in the Chittagong district. The Laksam union board (Tippera) also maintained a conservancy service with a paid staff of sweepers.

The union boards in Faridpur incurred the largest expenditure, viz., Rs. 18,800. on drainage, of which Rs.. 13,000 represented original works; the union boards in Khulna coming next with an expenditure of Rs. 14,000 under this head. The Lalmonirhat union board in the Kurigram subdivision (Rangpur) took up a drainage scheme in co-operation with the authorities of the Eastern Bengal Railway.

(*iv*) *Medical relief*.—A sum of Rs. 2·60 lakhs was spent by the union boards on the maintenance of village dispensaries and the provision of medical relief in rural areas, as compared with Rs. 1·92 lakhs in the preceding year. No details of the activities of the union boards in this connection are, however, forthcoming from any of the divisional reports except those of the Rajshahi and Chittagong Divisions. A number of joint union board dispensaries were maintained in the Rangpur district, while 11 dispensaries in Bogra and 8 in Malda were maintained either singly or jointly by the union boards. In Bogra, a large number of union boards also paid contributions towards the maintenance of district board dispensaries. The Gopalganj union board in Malda started a dispensary through its own efforts. In the Pabna district, a sum of Rs. 8,400, received out of the Government of India's rural uplift grant, was utilised for the establishment of union board dispensaries at Bhanguria, Sankharipara, Sonamukhi and Ramkrishnapur, while five union board dispensaries were started in the Chittagong district with the help of grants received from the same source. Eleven village dispensaries were maintained by the union boards of Tippera in addition to the five new dispensaries started with the Government of India's grant for rural uplift. Two kala-azar centres were also maintained by the union boards in the Chandpur subdivision of the same district. Altogether 88 new union board dispensaries were established in different parts of the Presidency with the help of the grants received from the Government of India for rural uplift during the year.

(*v*) *Primary education*.—The total expenditure by union boards for the promotion of primary education during the year rose from Rs. 2·91 lakhs to Rs. 3·09 lakhs. The union boards of the Burdwan, Presidency, Dacca and Rajshahi Divisions spent Rs. 80,000, Rs. 62,000, Rs. 69,000 and Rs. 87,000, respectively, under this head against Rs. 74,000, Rs. 59,000, Rs. 71,000 and Rs. 77,000, respectively, in the preceding year, while the union boards of the Chittagong Division spent practically the same amount, viz., Rs. 10,000, as in 1935-36.

Fourteen primary schools were maintained by the union boards of the Chandpur subdivision (Tippera) under the management of qualified teachers. Free primary schools were also maintained by the Khempur, Sadlichak, Bedrabad and Kaisat union boards in the Malda district and by some union boards in the Rangpur district. All the union boards of the Gaibandha subdivision (Rangpur) as well as several union boards in the Bogra district made grants-in aid to primary schools and almost all the union boards in the Pabna district are reported to have maintained primary schools in their respective areas.

(*vi*) *Some features of special interest*.—About 50 one-acre farms were started in different parts of the Chittagong district, under the supervision of agricultural demonstrators, for conducting experiments in the cultivation of certain crops with a contribution of Rs. 10 from each union board. The union boards of

Tippera spent a considerable amount on agricultural improvements and the maintenance of stud-bulls. The union boards of Tantiband and Himaitpur in the Sadar Circle of the Pabna district contributed Rs. 100 and Rs. 200, respectively, for the purchase and maintenance of stud-bulls in their respective unions. Some union boards in the Sadar subdivision of the Rangpur district also established agricultural farms which served as useful demonstration centres. In Tippera some silted up khals were re-excavated by the union boards and served the purpose of both irrigation and drainage. The Enayetpur union board in Malda completed the construction of a sluice gate in the village embankment at Bahakola at a cost of Rs. 550, of which Rs. 150 was paid by the Divisional Commissioner out of his discretionary grant. A number of union boards in the Rajshahi Division continued to maintain arrangements for street lighting, the most prominent among them being Naogaon in the Rajshahi district, Kurigram, Nilphamari and Domar in Rangpur, and Siliguri in the Darjeeling district. A number of libraries were started in the districts of Rangpur and Malda and four physical culture centres were opened in the latter district with financial assistance from union boards.

5. **Working of union benches and courts.**—(1) *Union benches.*—The total number of benches in existence during the year under review was 1,453 against 1,400 in the previous year. The number of offences reported to these benches was 71,760, showing a decrease of 10,509 on that of 1935. The working of the union benches was on the whole satisfactory. They have afforded appreciable relief to the ordinary courts by disposing of a fair number of petty cases.

(2) *Union courts.*—The total number of courts in existence during the year was 1,338 against 1,237 in the previous year. The number of suits instituted in these courts was 104,675, showing a decrease of 15,897 as compared with 1935. These courts have afforded some relief to the munsifs in the majority of the districts in which they were established.

The union benches and courts also brought additional income to the union boards in the shape of fines and court-fees realised from the parties and thus helped the local bodies in taking up works of public utility.

6. **Relation between district boards and union boards.**—The relations between the district boards and the union boards continued to be generally satisfactory.

The total grants made by the district boards under section 45 of the Village Self-Government Act rose from Rs. 3·20 lakhs to Rs. 3·35 lakhs and represented 21·8 per cent. of the amount raised by the union boards by way of taxation under section 37 (*b*) of the Act and 36·3 per cent. of the total augmentation grants received by the district boards during the year from the provincial revenues, as compared with 27 per cent. and 34·6 per cent., respectively, in the preceding year. The district boards of the Rajshahi Division substantially reduced their contributions to the union boards under section 45 and paid a sum of Rs. 80,621 only as compared with Rs. 1,05,261 in the preceding year. The district boards in the Presidency Division also reduced their grants from Rs. 57,653 to Rs. 50,318. In the Burdwan, Dacca and Chittagong Divisions, however, the grants paid by the district boards increased from Rs. 51,898 to Rs. 81,245, Rs. 67,110 to Rs. 81,543, and from Rs. 37,795 to Rs. 41,540, respectively.

The amount received by the union boards under section 33 of the Act for the management of works and institutions transferred to them by the district boards also rose from Rs. 1·64 lakhs to Rs. 1·84 lakhs and the total income of the union boards from pounds, which is, in effect, a transfer of district board revenue to union boards, rose from Rs. 2·22 lakhs to Rs. 2·25 lakhs during the year under review.

7. **General remarks.**—The union boards in general showed an all-round progress in matters of village self-government and works of public utility. It is encouraging to find that the amount of rates levied by the boards under section 37 (*b*) of the Village Self-Government Act during the year under report was 29 per cent., in excess of the amount levied in the preceding year. The collection of rates was also generally satisfactory and the payment of the salaries of chaukidars and dafadars was regular.

Although there is still considerable room for improvement in the actual administration of the union boards, there can be little doubt that the utility of the

boards is being more and more recognised and their importance in the field of local self-government is destined to increase as the local boards gradually disappear.

The union boards continued to give useful assistance to the local officers of Government in almost all the branches of the administration. They not only rendered valuable assistance in carrying on propaganda for jute restriction, in the destruction of the water-hyacinth pest and in the preparation of electoral rolls and various statistical returns, but also displayed a spirit of healthy co-operation with the police in the prevention and detection of crime.

While instances of inefficiency arising out of party factions and other causes were not uncommon, there are clear indications of the fact that the Village Self-Government Act is being used with increasing advantage, and, in certain semi-urban areas, it has been demonstrated that union boards can and do perform with reasonable adequacy the functions of small municipalities.

Rules.

I. Election of members to district board.

1. A local board shall not elect members for the district board until—

(*a*) the number of members of the district board to be elected by such local board has been fixed by notification under section 7 of the Act, and

(*b*) such local board has elected a Chairman.

2. (*1*) With one month from the date of publication of the notification referred to in clause (*a*) of rule 1 or of the election of the Chairman of a newly constituted or reconstituted local board, whichever be the later, the local board shall elect the requisite number of members for the district board at a special meeting to be convened by the Chairman:

Provided that if the term of office of the members of the district board does not expire within two months after the election of the Chairman, the election of members for the district board shall not be held earlier than two months before the reconstitution of the district board is due.

(*2*) The meeting shall be presided over by the Chairman or in his absence by the Vice-Chairman, or in the absence of both the Chairman and the Vice-Chairman, by a member elected for the purpose by the members present. In the last case, the member elected to preside shall be duly proposed and seconded.

(*3*) The election shall proceed as follows:—

(*a*) Any member present may propose a candidate either by name or by virtue of his office, for election to the district board.

(*b*) Such proposal shall not be taken into consideration unless it has been seconded by a member other than the candidate or the proposer.

(*c*) If the number of candidates duly proposed and seconded be less than or equal to the number to be elected by the local board in each case, the President shall declare such candidate to be duly elected.

(*d*) If the number of candidates duly proposed and seconded be greater than the number to be elected by the local board the President shall hand to each member present a voting paper in the form below in which the names of candidates who have been duly proposed and seconded have been entered and shall ask each member to record his vote by placing the mark × in the space provided for the purpose in the voting paper opposite to the name of the candidate or the names of the candidates whom the member prefers, and to sign his name on the back of the counterfoil of the voting paper.

Voting paper.

Name of candidate.	Space for placing mark ×.	Counterfoil for signature of the voter.
1.		Fold here (perforated).
2.		
3.		
4.		

(*e*) The voting paper shall be invalid if the mark × is placed opposite the name of more candidates than the number to be elected or if it is so placed as to render it doubtful to which candidate such mark is intended to apply, or if any mark is made on the foil of it by which the voter may be identified.

(*f*) each member shall proceed in turn to a place set aside for the purpose and shall there fill in the voting paper in such a manner that no other person can perceive what he writes. After placing the mark × on the voting paper he shall fold the counterfoil so as to conceal the votes recorded, sign his name on the back of the counterfoil and then hand the paper to the President. Without such folding of the counterfoil or signature the voting paper shall be invalid.

(*g*) The President as soon as all the voting papers have been delivered to him, shall in the order hereinafter specified—

(*i*) reject any voting paper which is unsigned or of which the counterfoil is not properly folded;

(*ii*) tear off the counterfoils containing the signature and place them apart from the voting papers proper;

(*iii*) reject any voting paper which is irregularly marked;

(*iv*) read out the names of candidates against which the mark × has been validly made;

(*v*) count the votes; and

(*vi*) declare the candidates to whom the largest number of votes may have been given to be duly elected on the district board :

Provided that where an equality of votes is found to exist between any candidates and the addition of one vote will entitle any of the candidates to be declared elected, the determination of the person or persons to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the President and in such manner as he may direct.

(4) Notwithstanding anything contained in the Rules of Business adopted by any board, if there are more candidates than vacancies the names only of the persons proposing and seconding and the number of persons voting for each candidate and the names of the candidates duly elected shall be entered in the proceedings.

3. The names of the persons elected to serve on the district board shall be forwarded without delay to the Deputy Commissioner of Darjeeling, who shall ascertain if they are duly qualified and are willing to serve.

4. If any person having been elected, decline to take office or be found not to be duly qualified, the unsuccessful candidate, if any, who received the largest number of votes, shall be declared to be duly elected. If there is no unsuccessful candidate, a fresh election shall be held to fill the vacancy thus created.

5. In the event of any person being elected by two or more local boards, such person shall have liberty to choose which local board he will represent, and as regards every other local board for which such person has been returned, the result of the election shall be determined under the preceding rule as if no votes had been recorded for him, and, if necessary, a fresh election shall be held.

6. Only persons qualified for election as members of a local board in the district are qualified for election as members of the district board.

7. The names of the elected members of the district board shall, together with the names or official designation of the appointed members be published in the *Calcutta Gazette*.

II. Term of office.

8. A member of a district board having once been elected as such by a local board continues to hold office until the expiry of his term and the subsequent abolition of the local board by which he was elected, does not affect the term of his office as a member of the district board

9. If any member of local or district board shall be unable to complete his full term of office, the vacancy caused by his resignation or removal or death shall be filled by the appointment or election, as the case may be, of another person, who is not disqualified under the Act or the rules, and the person so appointed or elected shall fill such vacancy for the unexpired remainder of the term for which such member would otherwise have continued in office.

10. (*1*) Whenever the number of members of an existing local or district board is increased, additional members shall be appointed or elected, as the case may be, for that purpose.

(*2*) The term of office of such additional members shall expire at the end of the term of office of the other members of the existing board.

III. Bye-election.

11. On the occurrence of a vacancy amongst elected members under rule 9, or in the case of an election of an additional member under rule 10, the Deputy Commissioner of Darjeeling shall send a notice to the local board which has the right to elect a member to fill the vacancy or the additional office, as the case may be, and such board shall, within one month of the receipt of such notice, elect a member in accordance with rules 2 to 6.

IV. Miscellaneous.

12. No election shall be invalidated on a point of form, provided that these rules have been substantially obeyed.

13. No election shall be invalidated on account of any irregularity whatever, unless it appears that the irregularity was such as materially to affect the results of the election.

14. No person in the employment or pay of the district or local board shall directly or indirectly engage in canvassing for votes or otherwise assist in the election of any candidate otherwise than by giving his own vote. Any breach of this rule will render him liable to dismissal.

15. All costs incurred in the publication of notices, the holding of elections or taking any other necessary action under these rules, shall be payable from the district fund.

If the members fail to elect the Chairman or the Vice-Chairman within the appointed time, the Commissioner shall appoint a Chairman or the Vice-Chairman as the case may be.

19. (*1*) Whenever a meeting of a newly constituted or reconstituted local board is held for the purpose of electing a Chairman and a Vice-Chairman, it shall be presided over by a member of the local board who shall be elected by the members of the board for conducting the election. The President in such cases must be duly proposed and seconded and must not be a candidate for the office of Chairman.

(*2*) A meeting of a local board other than a newly constituted or reconstituted board held for the purpose of electing a Chairman shall be presided over by the outgoing Chairman or, in his absence, by the Vice-Chairman:

Provided that should the outgoing Chairman be himself a candidate for election, the meeting shall be presided over by the Vice-Chairman if he is not also a candidate for election:

Provided further that if there is no Chairman, and the Vice-Chairman is a candidate for election, and also, if the Chairman and Vice-Chairman be both candidates for election, the meeting shall be presided over by a member of the local board other than the Chairman or Vice-Chairman, who shall be elected by the members of the board for the purpose of conducting the election of the Chairman. The President in such case must be duly proposed and seconded and must not be a candidate for the office of Chairman.

20. If only one member is proposed and seconded as President, he shall be deemed to be duly elected as such. If more than one member is proposed and seconded, the members present shall decide the election by vote. The votes may be taken by voices or by show of hands.

21. If the votes for two or more members proposed as President of the meeting are equal, then the selection of one of them shall be decided by lot.

PART VI

Bills introduced in the Council of State and Legislative Assembly; Reports of Select Committees presented to the Council and Assembly; and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 8th August, 1938:—

L. A. BILL No. 13 of 1938.

A Bill further to amend the Indian Cotton Cess Act, 1923.

WHEREAS it is expedient further to amend the Indian Cotton Cess Act, 1923, for the purposes hereinafter appearing; It is hereby enacted as follows.— XIV of 1923.

Short title.

1. This Act may be called the Indian Cotton Cess (Amendment) Act, 1938.

Amendment of section 2, Act XIV of 1923.

2. In section 2 of the Indian Cotton Cess Act, 1923 (hereinafter referred to as the said Act),— XIV of 1923.

(*a*) the word "and" at the end of clause (*e*) shall be omitted; and

(*b*) after clause (*f*), the following clause shall be added, namely:—

"(*g*) a reference to British India includes a reference to Berar".

Amendment of section 4, Act XIV of 1923.

3. In clause (*viii*) of section 4 of the said Act, for the words "one to represent the industry in Bombay" the words "two to represent the industry in Bombay" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

The Government of India (Adaptation of Indian Laws) Order, 1937, has adapted the Indian Cotton Cess Act, 1923, in such a manner as to cause it to extend to Berar but has left the various references in the Act to British India to be construed in the light of the adapted definition of "British India" in the General Clauses Act, the effect of which is that references to British India in a law made before the commencement of Part III of the Government of India Act, 1935, do not include Berar. It is proposed to amend the Act in such a manner as to cause the references therein to British India to embrace Berar.

2. It is also proposed to amend section 4 (*viii*) of the Act. Under this section as it stood before adaptation, the cotton growing industry in Bombay was entitled to two representatives on the Indian Central Cotton Committee. When the section was adapted, one representative was allotted to Sind and one to Bombay. It was found later, however, that, on a comparison of the cotton acreage of Bombay with that of other provinces, the cotton growing industry in Bombay was still entitled to two representatives. The deficiency has hitherto been made good, as a temporary measure, by appointing the second Bombay representative as an additional member under section 4 (*xi*) of the Act. It is proposed that the mistake in section 4 (*viii*) of the Act should be rectified by substituting the word "two to represent the industry in Bombay" for the words "one to represent the industry in Bombay" in sub-section (*viii*) of section 4 of the Act.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 15th August, 1938:—

L. A. BILL No. 16 OF 1938.

A Bill further to amend the Indian Tea Cess Act, 1903, for a certain purpose.

WHEREAS it is expedient further to amend the Indian Tea Cess Act, 1903, for the purpose hereinafter appearing; It is hereby enacted as follows:— IX of 1903.

Short title and commencement.

1. (*1*) This Act may be called the Indian Tea Cess (Amendment) Act, 1938.

(*2*) It shall come into force on such date as the Central Government may, by notification in the official Gazette, appoint in this behalf.

Amendment of section 4, Act IX of 1903.

2. In sub-section (*2*) of section 4 of the Indian Tea Cess Act, 1903,— IX of 1903

(*a*) for the word "twenty-seven" the word "twenty-eight" shall be substituted;

(*b*) in clause (*c*), the word "and", where it occurs at the end of the clause, shall be omitted; and

(*c*) after clause (*d*) the following clause shall be added, namely:—

"(*e*) one on the recommendation of the Travancore Government to represent the tea planters of Travancore."

STATEMENT OF OBJECTS AND REASONS.

The Government of Travancore levy cess on tea exported from that State at the same rate as that levied in British India and credit the cess proceeds to the Indian Tea Market Expansion Board. This Board as at present constituted does not, however, contain a separate representative of Travancore tea interests. The object of this Bill is to amend the Indian Tea Cess Act, 1903, so as to provide for separate representation of tea planters of Travancore on the Indian Tea Market Expansion Board.

Annual Report of the Royal Botanic Garden and the Gardens in Calcutta and of the Lloyd Botanic Garden, Darjeeling, for 1937-38.

ROYAL BOTANIC GARDEN.

General.—During the year under review the most important event was the celebration on the 6th January of the 150th Anniversary of the Royal Botanic Garden, Calcutta. The Hon'ble Nawab Khwaja Habibullah Bahadur of Dacca, Minister, Agriculture and Industries Department, presided over the celebration which was attended by the British and the Indian botanists who had come to Calcutta to attend the Silver Jubilee Session of the Indian Science Congress Association. Sir James Jeans, the General President of the British Association and of the Indian Science Congress Association, and Sir Arthur Hill, Director, Royal Botanic Garden, Kew, addressed the gathering and amongst well-known British botanists present were Professor A. H. R. Buller, Professor F. E. Fritsch, Dr. C. D. Darlington, Professor R. Gates and Professor I. H. Harrison. Messages of congratulations and wishes for continued success were received from many scientific institutions and persons from India and abroad

A Sesqui-centenary Volume of the Royal Botanic Garden, Calcutta, is under preparation in which the full proceedings, together with the contributions from many distinguished botanists on various branches of Indian botany, will be published.

It will be appreciated that the maintenance of the Garden's usefulness in many of its directions carries with it a necessity that living and herbarium specimens of plants from other Gardens abroad are regularly obtained. During the past year, the Superintendent when on study leave in England had an opportunity of reviving the arrangements by which the Royal Botanic Gardens, Kew, the British Museum (N.H.) London, and the Royal Botanic Garden, Edinburgh, promised to supply by way of exchange to the Sibpur Herbarium specimens which are rare or new or may be missing there. Sir Arthur Hill, Director, Royal Botanic Garden, Kew, and Sir William Wright Smith, Regius Keeper, Royal Botanic Garden, Edinburgh, have to be thanked for the very generous gift of some rare specimens from Kew and some new Primulas from Edinburgh. These are valuable acquisitions to the Herbarium.

The display of the cold weather annuals which this year did very well was highly appreciated by the public. The Garden carried away some of the best prizes at the flower show of the Royal Horticultural Society of India held on the 18th December, 1937. About 162 plants were planted in the Garden of which the following were new, the remainder being the always necessary replacements:—

Acacia leucophloea; Caesalpinia sepiaria var. Japonica; Acacia sp.; Clausena heptaphylla; Piper Betle; Aglaia pervividis; Eugenia lineata; Clerodendron Colebrookianum; Anona glabra; Ostodes paniculata; Barleria cristata var. Scarlet; Sesbania paniculata, Millettia reticulata; Diospyros Kaki;

Lagerstroemia subcostata; Bauhinia fassoglensis; Aloe striatula; Aloe africana; Albizzia Julibrissin; Dolichondrone Hildebrantii; Erythrina tomentosa; Clerodendron Zambesica; Acacia Senegal; Millettia oblata; Platanus occidentalis; Celtis Tala; Cordia Holstii; Bauhinia aculeata; Caesalpinia Gilliesii; Ruprechtia salicifolia; Manihot palmata; Calliandra bicolor; Terminalia australis; Acacia bonariensis; Sesbania Tripetti; Acacia visco; Cordia interrupta; Sonneratia apetala.

2. **Plant and seed exchange.**—Five hundred and eighteen plants were received and 10,150 plants were despatched, out of which a large number have as usual been utilised for horticulture and roadside beautification of this country. One thousand one hundred and forty-six packets, 45 lbs. and 4oz. of seeds were distributed to various places abroad including Australia, Puerto Rico, Washington, China, Caucasus, Java, England, Holland, Brazil, Egypt, Africa, Trinidad, Germany, etc., and to the different parts of India, including Bombay, Lahore, Madras, Benares, Burma, Saharanpur, Nilgiri, Agra, etc.

Six hundred and forty-four packets and 3 lbs. of seeds were received from different foreign countries including China, Germany, England, Japan, Java, Australia, Singapore, and also from many parts of India. Of the new plants introduced into the Garden, *Victoria Cruziana* and *Salvinia auriculata* proved to be of special interest.

Eighteen plants of *Nepenthes Khasiana*—an interesting but rather delicate species—were received from the Deputy Commissioner in charge of Forests, Shillong. Of these three survived. One dozen selected plants of the Nilgiris (South India) were received for the 150th Anniversary Show from the Curator, Government Botanic Gardens, Ootacamund and are to date doing well. Our thanks are due to the Deputy Commissioner in charge of Forests, Shillong, and to the Curator, Government Botanic Gardens, Ootacamund for the gifts.

The road work was continued as in the past. Tarring of about 50,000 square feet of road was done during the year. Necessary repairs of bridges, houses, etc., were also done.

3. **Herbarium and library.**—Three thousand one hundred and thirty-five specimens were identified for a large number of correspondents, both official and unofficial, from all over India. The largest number of specimens was received from the Botanical Officer, Shillong Herbarium, in connection with the publication on the Flora of Assam which is being published by the Assam Government. Five thousand one hundred and ninety-eight sheets of this herbarium were again on loan this year to workers on special groups of plants, especially outside India. They included 4,293 sheets of the rest of the Indian *Labiateae* to Sir William W. Smith of the Royal Botanic Garden, Edinburgh, in connection with the preparation of a monograph on Indian *Labiateae* by Mr. S. K. Mukherjee, M.Sc., who was studying there; 236 sheets of *Hydnocarpus*, *Taraktogenos* and *Asteriastigma* to Berlin; 24 sheets of *Ficus glabella* to Canton University, China; 104 sheets of *Microtropis* to Elmer D. Merrill of the Harvard University; 259 sheets of *Selaginella* to Mr. J. Ramsbottom, Keeper, Department of Botany, British Museum (Natural History), London, which were duly worked out by Mr. A. H. G. Alston partly in collaboration with the Superintendent; 10 sheets of *Allium* to Mr. J. E. Dandy of British Museum (N. H.); 110 sheets

of *Cuscuta* to Leiden (Holland); 9 sheets of *Anthistiria* to the Forest Botanist, Dehra Dun; 29 sheets to Mr. A. Das of Assam and 133 sheets of *Lilium* to Mr. A. D. Cotton, Curator of the Kew Herbarium. Two thousand eight hundred and fifty-five sheets including those of *Derris*, *Lilium*, *Hydnocarpus*, *Selaginella* and part of *Labiateae* which were on loan were received back in the herbarium. Two hundred and forty-eight sheets hailing from Japan (Professor Tanaka), China and Buitenzorg were additions to the herbarium either as exchange or free gifts. Three thousand and ninety-three sheets were incorporated into the general herbarium. About 1,000 sheets were mounted and repaired.

The increased demand for free supplies of botanical materials for purposes of research in and outside India was complied with satisfactorily. They included 182 named and mounted sheets of Bengal plants to Professor J. R. Mathews of the Aberdeen University; leafy twigs of *Ficus Krishnae* to Mr. Kotwal of Bombay; collection of Garden *Selaginellas* to Mr. A. H. G. Alston of the British Museum; Bulbils of *Dioscorea alata* to Mr. I. H. Burkill; specimens of *Salvinia species* to Assistant Professor of Botany, Fergusson College, Poona; preserved material of 12 species of Himalayan conifers to Dr. Heber of Berlin; specimens of *Polypores* to Dr. S. R. Bose of the Carmichael Medical College, Calcutta; packet of seeds of *Abroma augusta* to the Deputy Director of Agriculture, Mysore; 16 packets of seeds of *Helicia erratica* to several botanical and agricultural institutions throughout the world; 1 packet of seeds of *Phaseolus calcaratus* to the Director of Plant Breeding, Department of Agriculture, Sydney, Australia; packet of seeds of *Sapium sebiferum* to the Botanic Gardens, Peradineya, Ceylon. Besides supply of materials, considerable amount of valuable information of a miscellaneous nature covering such subjects as botanical, economic plants, medicinal, horticultural and agronomy, was liberally supplied to a wide circle of correspondents too many to be mentioned in this brief report.

Mr. A. Das, the editor-author of the "Flora of Assam," Dr. N. L. Bor, the Forest Botanist, Dehra Dun, and Mr. C. E. Parkinson, the retiring Forest Botanist, Dehra Dun, visited the herbarium to work out their specimens. They were all given necessary facilities and assistance. Mr. Das has been in constant touch with the officers of the Herbarium in connection with the work on the flora of Assam and with the identification of his collection of Monghyr plants. The two assistants, Mr. N. Goswami and Mr. H. L. Chakravarty, worked in the herbarium throughout the year in connection with the investigation of the Indian medicinal plants by Br.-Col. R. N. Chopra, Director, School of Tropical Medicine. They and the artists staff of Br.-Col. Chopra were given full facilities and help in consulting herbarium materials, literature and plates. Especial arrangements had been made for their work at night and during the holidays.

4. **Publications.**—Amongst the publications of the Garden the following may be noted—(1) "Two New Flowering Plants" (*Diospyros Kika* Debbarman et Biswas and *Cortalaria Kotaiensis* Debbarman et Biswas), *Cardamine Smithiana* Biswas, *Convolvulus Baluchistanensis* Biswas, (2) "Studies on Indian Iron Bacteria" by Dr. K. Biswas (3) "Hand Book of Common Water and Marsh Plants of India and Burma" by K. Biswas and C. C. Calder was published as Health Bulletin No. 24 of the Government of India Publications, New Delhi. Mr. C. C. Calder contributed an article on "The Vegetation of India" to the Field

Sciences of India, published by the Indian Science Congress Association. The following were in the press:—

(1) Banausadhi Parichaya, a treatise on Indian medicinal plants, in Bengali, by K. Biswas and E. Ghosh, to be published by the University of Calcutta;

(2) (i) Flora of the Lushai Hills by C. E. C. Fischer; and

(ii) Some New North-West Himalayan Mosses by H. N. Dixon and R. L. Badhwar, in the Records of the Botanical Survey of India, Volume XII, No. 2.

The present Superintendent while in London took the opportunity to discuss with Sir David Prain, the author of the well-known "Bengal Plants," and settled the final plan of rewriting a new Flora of the Presidency of Bengal as suggested sometimes since by Sir David. The work is being continued on the principles agreed.

Volume XIV, Part II of the Annals of the Royal Botanic Garden, "An Account of the Genus Dioscorea in the East—the species which twine to the right" by David Prain and I. H. Burkill was in the press.

One hundred and twenty-two copies of the Annals of the Royal Botanic Garden, Calcutta, Volume XIV, Part I, "An Account of the Genus Dioscorea in the East"—the species which twine to the left, by David Prain and I. H. Burkill with 85 plates were distributed to the different institutions of foreign countries. Names of thirty-one institutions have been added to the distribution list of the annals this year. This new distribution list was drawn up by Mr. I. H. Burkill and the writer in consultation with others at Kew. Names of some of the minor institutions were eliminated.

Allotment for the library was fully spent. Thirty-five journals and 3 books were purchased, 62 journals were received on exchange, 21 reports and 7 books were presented. Seventy-nine books were received back from loan and 39 books were still on loan at the end of the year. Eighty-five books were bound and many have been repaired.

5. **Finance.**—Out of a total budget allotment of Rs. 54,433 for staff and permanent establishment, Rs. 50,418 were spent, and under all other heads the expenditure amounted to Rs. 48,710 against the total allotment of Rs. 48,805. A sum of Rs. 3,980 was surrendered under the head "Pay of officers—Charged." There was a net saving of Rs. 130 under all heads during the year. Receipt of the department during the year amounted to Rs. 1,857.

6. **Staff.**—Mr. C. C. Calder, Superintendent, held the charge till 28th October 1937, when he went on leave preparatory to retirement. The writer held the charge from 29th October 1937 till the end of the financial year, in addition to his own duties as Curator of the herbarium. Mr. V. Narayanaswami officiated as Curator of the herbarium till the 29th October 1937, when the substantive holder of the post relieved him on return from study leave.

Messrs. N. Mitra and Md. Quasem Ali were Curator and Assistant Curator, Royal Botanic Garden, respectively, throughout the year.

Mr. Gholam Mohiuddin was Overseer of the Garden throughout the year.

Mr. A. T. Banerjee was Head Clerk throughout the year.

CALCUTTA GARDENS.

The display of winter annuals this year was a complete success, despite belated planting due to adverse weather conditions prevailing at the time of sowing seeds. It has been the custom of these Gardens to maintain a prolonged period of flowering of these popular winter annuals. Apart from the favourable weather conditions, the success of annual flower shows depends much on raising the seedlings earlier and planting them out in the open beds soon after the rains. Necessary control over the germination of the seeds in the nursery stage coupled with the amount of care taken when sowing is an important factor for the production of better quality of cold weather flowers. In this respect the Garden is much handicapped. The improvised arrangement of covering seed pans to protect them from wind and rain is very unsatisfactory, and suitable glass frames should be provided in the nursery. The beauty of the magnificient plant, the giant Amazon Lilies (Victoria regia) in the lakes of the Eden Gardens, grown so successfully during the last few years, attracting special attention of the Calcutta visitors, was marred by the cyclone that Calcutta experienced last September. Considerable havoc was also done to the trees of the Garden The usual routine work was well and efficiently carried out. About one hundred plants from this Garden formed part of the exhibition arranged during the celebration of the 150th Anniversary of the Royal Botanic Garden, Calcutta. Special mention may be made of the success achieved in growing Digitalis in this Garden from seeds received from Mr. C. C. Calder, but no spike developed before the advent of the hot weather. Two other species of economic importance—one a *Passiflora sp.*, and the other *Durio zibethinus*—introduced for the first time to the Garden—were kindly presented by a visitor. The fruit of the latter commonly known as "Durian" is much prized in Burma and Malaya. These are valuable acquisitions to the Eden Gardens and are doing quite well in the Calcutta climate.

The jheels are breeding grounds for mosquitoes and should be reexcavated.

It is still a baffling problem how to keep off the crowds from the lawns in the Calcutta Gardens during the football season. All possible attempts towards protection of garden beds and hedges have proved so far futile. No hedge of any kind will prove of any use so long as a strong iron railing is not provided along the entire south end wall of the Eden Gardens to prevent the enormous football crowds from damaging the hedges, lawns and beds.

Dalhousie Square and Curzon Gardens were selected for the erection of the statues of the late Sir R. N. Mukerjee and Sir H. Goenka—two of the leading citizens and philanthropists of the country. The former facing the General Post Office was unveiled by His Excellency the Right Hon'ble Lord Brabourne, G.C.S.I., G.C.I.E., M.C., Governor of Bengal, and the latter at the west end of the Curzon Park was unveiled by Sir John Anderson, P.C., G.C.B., G.C.S.I., the late Governor of Bengal.

Finance.—Out of a total budget allotment of Rs. 32,191 under all heads, Rs. 32,177 were spent, leaving a small saving of Rs. 14. Receipts during the year from the Dalhousie Square Garden amounted to Rs. 4 only.

Staff.—Mr. Merlin Jones was Assistant Curator, Government Gardens, Calcutta, except for a very short period from 1st to 13th April 1937, when he was on leave.

Mr. J. A. Hulbert was Overseer throughout the year, and in addition to his own duties held the charge of the Calcutta Gardens during the period of absence of Mr. Jones on leave.

LLOYD BOTANIC GARDEN, DARJEELING.

The plants of the Lloyd Botanic Garden, Darjeeling, have to face somewhat inclement weather every year. The hardier species and those which have acclimatised themselves survive the vagaries of nature, but many of the introduced species do not show signs of healthy growth until they have adapted themselves to the local climatic conditions. The annuals which play an important part in the æsthetic aspect of the Garden are particularly sensitive to the weather conditions. The success of staging flowers and decorative delicate plants depends considerably on how much nature favours them. The average rainfall during the year was 102·15 inches, rather below the normal. Such a low rainfall than the average led to a drier condition which affected the summer annuals. On the other hand, continuous rain damaged to a certain extent the autumn annuals. This entailed extra labour due to replacement of the seedlings several times. The usual routine work of the Garden continued and attempts were made to complete some of the new works taken in hand. The rock garden is gradually taking shape. The maintenance of such a highly specialised garden necessitates yearly introduction of new plants replacing the dead or overgrown ones. The following species were added during the year:—

Alyssum saxatile, Alyssum serpyllifolium, Androsace Hookeriana, Arenaria capillaris, Arenaria alpestra, Arenaria laricifolia, Anchusa myosotidiflora, Saponaria cerastoides, Aster rotundifolius, Aubrietia Campbelli, Arabis alpina, Arabis muralis, Achillea filipendulina, Artemisia splendens, Berberis sp., Spergula pilifera, Statice puberula, Alonsoa Warscewiczii, Aloe sp., Phyllanthus reticulatus, Saxifraga purpurascens, Saxifraga hispidula, Saxifraga diversifolia, Lilium Wallichianum, Lilium nepalense, Ajuga macrosperma, Nierembergia hippomanica, Impatiens arguta, Impatiens Jurpia, Impatiens tripetala, Diascia Barberae, Dianthus allwoodii, Erigeron glabellus, Erigeron aurantiacus, Epilobium parviflorum, Epilobium alpinum, Erica sp., Gentiana tibetica, Cenia barbata, Meconopsis paniculata, Meconopsis Baileyi, Meconopsis nepalensis, Meconopsis Wallichii, Meconopsis cambrica, Cathcartia villosa, Erinus, alpinus, Polygonum capitaum, Polygonum orientale, Polygonum amplexicaule, Dimorphotheca pluvialis, Globularia trichosantha, Lychnis alpina, Verbena erinoides, Verbena lilacina, Iberis gibraltarica, Genista Daisy Hill, Cytisus scoparius, Primula capitata, Primula petiolaris, Primula denticulata, Iris Clarkei, Antirrhinum molle, Digitalis ferruginea, Ephedra vulgaris, Cynoglossum furcatus, Veronica sp., Calamintha alpina, Cortia Hookeri, Aster sikkimmensis, Senecio diversifolia, Strobilanthes Wallichii, Adenophora Bulleyana, Hypericum cernuum, Chrysanthemum macrophyllum, Doronicum caucasicum, Calanthe odora, Gentiana sikkimensis, Erodium cicutarium.

Annual requirements for seeds and plants for this Garden demand keeping up proper exchange relation with the overseas temperate

gardens. The Superintendent during his stay in Great Britain came into contact with the authorities of many leading botanical gardens, horticultural institutions and various nursery-men. He is receiving prompt response from them for exchanging seeds and plants. This Garden situated, as it is, in a unique floral region of the Eastern Himalayas forms a centre for distributing the Himalayan plants, and also for studying the particular types of plant associations which command the keen interest of botanists all over the world.

During the year only one tour was undertaken by the Curator for a short time which resulted in incorporating a few local species to the collection. Funds will have to be provided to carry on the field work in a proper manner. The Curator sent a collection of some of the interesting species of Himalayan Orchids to the Royal Botanic Garden, Calcutta, this year to display them for the inspection of the overseas visitors at the exhibition of the 150th Anniversary Celebration of the Royal Botanic Garden, Calcutta. One thousand and thirty-five herbarium specimens, representing 1,118 local genera with provisional names were sent to the headquarters for distribution. Eighty-three packets of seeds were kindly presented by different correspondents. Twelve bulbs collected from the higher ranges of Tibet were presented by Captain F. Kingdon Ward. The bulbs were not in a suitable state of preservation, but as desired by Captain Kingdon Ward, attempts are being made to revive them. Three thousand two hundred and seventy-eight packets of seeds, 119 plants, 10,964 seedlings were distributed to various botanical and other scientific institutions of the world. Many Indian botanical institutions received as usual plant materials for study.

Seeds of the undernoted species received from different correspondents germinated:—

Erodium cicutarium, Erodium gruinum, Saponaria cerastoides, Scutellaria albida, Solanum sisymbriifolium, Rocarmigerum, Dipsacus laciniatus, Phleum pratense, Erigeron glabellus, Phalaris canariensis, Sarpiurus, Astragalus hamosus, Trifolium scabrum, Artemisia splendens, Aira capillaris, Silene schafta, Phyteuma Otites, Acacia neriifolia, Arenaria serpyllifolia, Campanula lactiflora, Helianthemum canadense, Buddleia alternifolia, Acacia notabilis, Vicia erecta, Cotoneaster angustifolia, Stachys iberica, Digitalis ferruginia

Two hundred and fifteen plants were planted as a result of the recent attempt to increase the general stock of the Garden plants and thereby utilising the more open space of the Garden which might in future develop—in suitable places—small arboretum composed of assorted local species. *Larix Griffithii* (a rather difficult plant to tackle with) and *Colquhounia vestita* are the two new additions. The flowering plants in pots were in full bloom and some of them seeded. These attracted usual admiration of the visitors—

Meconopsis Wallichii, Meconopsis simplicifolia, Meconopsis cambrica, Meconopsis nepalensis, Meconopsis sinuata, Meconopsis paniculata, Primula denticulata, Primula obtusifolia, Primula sikkimensis, Primula petiolaris, Primula floribunda, Primula capitata, Saxifraga hispidula, Saxifraga purpurescens, Saxifraga diversifolia, Polygonum amplexicaule, Polygonum speciosum, Caltha palustris, Lychnis alpina, Alyssum Saxatile, Alyssum serpyllifolium, Arabis

alpina, Arabis muralis, Aubrietia Campbelli, Asphodeline lutea, Cotula barbata, Genista Dasy Hill, Cytisus candicans, Cytisus scoparius, Lilium nepalense, Lilium Wallichii, Iris Clarkei, Iris Germanica, Iris ensata, Sedum coeruleum, Aster tricephalus, Aster diplostephioides, Nirumbergia Hippomanica, Smilacina fusca, Smilacina oleracea, Disporum calcaratum, Globularia trichosantha, Impatiens tripetala, Aster (rotundifolius), Senecio diversifolia, Gentiana ornata, Gentiana elliptica, Pottentilla Mooniana, Pottentilla fulgens, Pottentilla Kleiniana, Anaphalis triplinervis, Cymbidium giganteum, Cymbidium grandiflora, Cymbidium eburneum, Cymbidium Devonianum, Cypripedium Fairieanum, C. venustum, Calanthe brevicornu, odora, Phajus maculatus.

On the constructive side necessary repairs of glass houses, fountains, conservatory, etc., were done. A tablet was erected in the rock garden which has been named "Sir John Anderson Rock Garden" after the late Governor of Bengal who took particular interest in the development of this portion of the Garden.

The herbarium, as noted in previous years, continued to prove to be a valuable acquisition to the Garden. Such a handy collection of the local flora offers excellent opportunity for provisional study of the East Himalayan plants on the spot. Proper attention to this collection is imperative and further incorporation of species is also essential for making the herbarium materials more useful. Need for exploration in the higher ranges and less known parts is indispensable both for horticultural operations and floristic work. Explorers and botanists from various parts of the world are making laudable attempts to acquaint themselves with the wonderful treasures of Sikkim plants which should better be thoroughly explored in a proper manner by the people of this country. The importance of a local flora of the Sikkim Himalayas cannot be over-emphasised. Steps are being taken for preparation of such a flora at the headquarters. There is much field also for the interested public to utilise in a profitable manner the vegetable resources of this part of the Himalayas.

Fifty-nine thousand eight hundred and five persons visited the Garden during the year. This includes some of the distinguished visitors from overseas who came to India as delegates to the Silver Jubilee Session of the Indian Science Congress Association held jointly with the British Association in Calcutta. This is the first occasion when Sir Arthur Hill, Director, Royal Botanic Garden, Kew, visited the Garden on the 30th and 31st December 1937. He was much interested in some of the species growing in this Garden.

The Curator and the staff of the Lloyd Botanic Garden as usual spared no pains to make the Darjeeling Flower Show a success. The Curator's co-operation with the writer in the preparation of a "Guide Book" of the Lloyd Botanic Garden, Darjeeling, is much to be appreciated.

Finance.—Out of an allotment of Rs. 15,678 under all heads, Rs. 15,285 were spent, leaving a saving of Rs. 393.

Staff.—Mr. S. N. Basu was Curator throughout the year.

Resolution on the final report on the relief operations in the district of Burdwan during the year 1936.

GOVERNMENT OF BENGAL.

Revenue Department.

Miscellaneous.

RESOLUTION- No. 18704 Misc.

Calcutta, the 8th September 1938.

READ-

Memorandum No. 2080 R.G., dated 23rd June 1937, from the Commissioner of the Burdwan Division, submitting the final report on the relief operations in the district of Burdwan during the year 1936.

2. The district of Burdwan has an area of 2,705 square miles with a population of 1,575,699 and lies between the Ajay, the Bhagirathi and the Damodar rivers. The eastern and western portion of the district differ completely from each other in physical features. The eastern portion, which covers more than two thirds of the district, is a delta, the southern end of which approaches the sea-board Fertile and densely populated, it presents the usual monotonous appearance of Bengal rice fields and has no mineral wealth. Towards the west the country assumes a more uneven character and resembles a promontory jutting out from the hill ranges from Central India It is rich in mineral wealth and the subdivision of Asansol is dotted with coal mines.

3. There had been irregular and scanty rainfall for three successive seasons which affected prejudicially the condition of the crops in the areas not served by the Damodar Canal, but good crops and in some instances bumper crops were obtained in the canal areas covering about 400 square miles. In 1935 the country on the right and left banks of the Damodar was flooded, and crops in a number of fields were destroyed by a thick deposit of sand. The flood water facilitated transplantation in other areas, but the failure of the rains in September damaged the *aman* crops; and except in the canal areas the yield of *aman* paddy was very small, even in areas near the river.

4. In the areas unaffected by flood the failure of crop was still greater. The rainfall in July and August was scanty and irregular, so that transplantation was retarded, and the failure of the September rain was so complete that the *aman* crop was less than one-fourth of the normal. The higher lands yielded only a little straw and no grain at all, and the crop there was only fit for fodder. As usual in times of widespread scarcity, there was contraction of credit, which had to be met by distribution of large sums in agricultural loans. Distress amongst landless labourers gradually became acute, and early in 1936 test works had to be opened. Eventually scarcity had to be declared under the Bengal Famine Code throughout the whole of the Katwa subdivision and in parts of the Sadar and Kalna subdivisions. The total area affected by failure of crops was 1,762·62 square miles of which 1,261 square miles was severely affected. The total population affected was approximately 423,000. The situation began to improve in July and August 1936 when copious rains gave promise of a good harvest. Test works were closed by the end of July and with the harvesting of the early autumn rice gratuitous relief was also restricted. Relief measures finally ceased by the middle of November of the same year.

5. The relief measures consisted of

(1) Test works.

(2) Gratuitous relief.

(3) Special relief, such as relief to weavers, etc.

(4) Private works (including works carried on with the help of loans granted under the Land Improvement Loans Act).

(5) Distribution of agricultural and land improvement loans.

6. **Test works.**—Test works were started on 5th February 1936 and continued till 27th July 1936. The works, all of which were carried out by the district board, included construction of new roads, improvements to existing

roads, construction of new bundhs, repairs to the old and abandoned embankments of the Ajay river and re-excavation of old irrigation tanks. In the selection of works, preference was given to improvements in irrigation. Some 40 tanks and bundhs were re-excavated as test relief works at Government cost.

The total cost of these works amounted to Rs. 1,40,026 and the number of units relieved was 11,90,279. The average cost per unit was about 1 anna 10 pies.

[*Note*.—A "unit" = one person relieved for one day.]

7. **Gratuitous relief.**—Gratuitous relief was given in accordance with the procedure laid down in Chapter VIII of the Famine Code out of the grant sanctioned by Government. It was distributed through Union Relief Committees at the rate of 3 pice or 7½ chitaks of rice for adults and 2 pice or 5 chitaks of rice for children. A total sum of Rs. 73,787 was spent on this account and the number of units relieved was 14,63,359.

Relief was also given in the form of free distribution of cloth. Altogether 7,018 pieces of cloth were distributed free to indigent people of all classes. Of this number 3,368 pieces were manufactured by the weavers of Katwa who were relieved through an advance of Rs. 2,000 made from the funds of the District Charitable Society.

Another sum of Rs. 1,210 was spent in buying the products of the Jamalpur weavers, 50 families being thus relieved.

Both the East Indian and Eastern Bengal Railways gave concession rates for freight on cloth and other commodities required by recognised relief organisations.

Advances were also given to indigent women to enable them to carry on paddy husking at their homes. A sum of Rs. 2,250 was advanced by the district board for this purpose. The total number of persons relieved under this scheme was 570.

8. **Relief to "bhadralog."**—The "bhadralog" class presented a special problem. It was realised that the giving of free doles to able-bodied persons without requiring them to do any work in return was not desirable, but no suitable work could be obtained for this class of persons who thought it beneath their dignity to join the test works with the ordinary labourers. Those of them who held land were accommodated with agricultural loans. Others who would not do any earth work, but who were in great distress; received relief from a sum of Rs. 13,050 obtained from the District Charitable Relief Committee for this purpose. Relief was given to these persons at the rate of Rs. 5 per family.

9. **Loans.**—A total amount of Rs. 7,89,900 was advanced under the Agriculturists' Loans Act in the years 1935-36 and 1936-37 and Rs. 71,230 were distributed under the Land Improvement Loans Act. The latter type of loan was particularly useful in the Kalna subdivision where a large number of private works were thus financed, affording employment to a considerable number of people.

Scarcity of water both for men and animals was very keenly felt throughout the distressed areas. To relieve this, an allotment of Rs. 7,550 was made for tube wells and ring-wells in places where they were most needed.

10. Mr. O. M. Martin, C.I.E., I.C.S., the then Additional Commissioner, Presidency and Burdwan Divisions, supervised the relief operations. He visited the district several times and toured in the affected tracts.

11. In the opinion of Government the relief measures carried out in this district were adequate and were conducted with efficiency and economy. Credit is due to all those who worked earnestly to achieve this satisfactory result. The District Officer, Mr. R. H. G. Johnston, I.C.S., worked with great energy and ability in conducting the relief operations. The cordial thanks of Government are due to the district board of Burdwan for their whole-hearted co-operation in relief measures, and in particular to the Chairman, Raja Bahadur Moni Loll Singh Roy, C.I.E., who worked heart and soul for the success of the relief operations and to the District Engineer Babu Promotha Nath De whose energy and devotion to duty were an example to all. Thanks are also due to the two Vice-Chairmen of the district board, to the presidents and members of union boards, to various charitable organisations and to all private persons who generously contributed to the efficient and successful working of the relief operations.

The cordial thanks of Government are also due to the British Indian Association for their co-operation in relief measures and in the creation of the 1936 West Bengal Scarcity Relief Fund, and in particular to their President, Maharajadhiraja Bahadur Sir Bijay Chand Mahtab, G.C.I.E., K.C.S.I., I.O.M., and Messrs. P. N. Singh Roy, S. K. Mitter and A. C. Daniell, Joint Honorary Secretaries of the fund, and to Mr. H. J. Fitzpatrick, Honorary Treasurer, for the work done by them in connection with raising of the fund for the relief of distress. The Governor is pleased to direct that the good work done by the following officers be recorded:—

(1) Babu Aswini Kumar Maitra, Subdivisional Officer, Katwa.

(2) Mr. V. C. Dutt, Deputy Collector and Relief Officer.

(3) Babu Sudhanna Kumar Guha, Sub-Deputy Collector and Circle Officer, Kalna.

FINAL FORECAST OF THE JUTE CROP, 1938.

Consolidated statement for Bengal, Bihar, Orissa and Assam.

Area.—The revised estimated area for the four provinces is 3,074,100 acres, an increase of 185,500 acres as compared with the revised final Forecast for 1937. The total decrease, as compared with the acreage in the Preliminary Forecast for 1938, is due to revision in the estimates.

Yield.—It is estimated that the crop will yield 6,695,550 bales of jute, i.e., less than last year's total (revised) by 1,984,950 bales.

The consolidated returns are as follows:—

DEPARTMENT OF AGRICULTURE, BENGAL.

FINAL FORECAST OF THE JUTE CROP OF BENGAL, 1938.

[NOTE.—**On an average of the five years ending 1936-37, the area under jute in Bengal, to which this forecast relates, represents some 83·9 per cent. of the total area under jute in British India.**]

Season.—After the issue of the Preliminary Forecast, conditions continued to be generally unfavourable for the growth and development of the crop in most parts of the province. Incessant rainfall in some areas and floods in others caused serious damage in most of the districts. The Deshi crop in particular was badly affected from both causes. In most of the jute-growing tracts, including the Deshi, rainfall has been much above the normal.

Condition of the Crop.—As noted above, areas in many districts have been totally destroyed either by incessant rainfall or heavy floods. Both these causes have also very considerably affected the outturn. This is particularly so in the Deshi districts and some of the North Bengal tracts.

Area of the Crop.—The area under jute is estimated to be 25,21,500 acres as against 22,08,900 acres (revised) in 1937.

Outturn.—As in previous years, the percentage figures are calculated on the basis of Divisional normals which remain as follows:—

	Bales per acre.
Dacca and Chittagong Divisions ...	3·7
Rajshahi Division ...	3·5
Presidency and Burdwan Divisions ...	3·2

The total outturn of the crop is estimated at 57,55,450 bales as against 70,71,600 bales last year.

Stocks.—It is reported that approximately 2 lakhs of bales remain in the districts in the hands of the cultivators.

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BIHAR.

FINAL FORECAST OF THE JUTE CROP OF BIHAR, 1938.

[NOTE.—**On an average of the five years ending 1936-37, the area under jute, to which the Bihar forecast relates, represents about 8·6 per cent. of the total area under jute in British India.**]

Acreage.—The final district returns of the six jute-growing districts of the province show an area under jute of 315,500 acres as against the last year's area of 445,000 acres. The decrease is due to excessive rainfall and floods in the most important jute-growing district of Purnea.

Weather conditions.—In March scanty showers fell in Purnea and there was no rain in the remaining jute districts. In April light rain fell in all jute growing districts but the fall was below the normal everywhere. In May the rainfall was moderate in all jute districts, it being above the normal everywhere. The rainfall in June was excessive in all these districts except the Santal Parganas where the fall was only slightly above normal. In July again the rainfall was excessive in Purnea and above the normal everywhere except the Santal Parganas where it was below the normal. The rainfall in August was general in all jute districts. The weather and rainfall have not been favourable in Darbhanga and the most important jute-growing district of Purnea. It was however favourable in Champaran and fair in the remaining disricts.

Outturn.—In the district of Purnea the outturn of the crop has been estimated at 40 per cent. of the normal. Champaran reports 95 per cent. Muzaffarpur, Darbhanga, Bhagalpur and the Santal Parganas report 78, 32, 60 and 32 per cent. respectively.

Accordingly I estimate that the outturn this year will be 41 per cent. of the normal. Enquiries about the normal outturn per acre have shown that the normal outturn per acre is 3⅓ bales, and on this basis the gross outturn on 315,500 acres estimated to be under jute in this province comes to 435,600 bales, against 896,400 bales last year. Adding 25,000 bales, the estimated imports from Nepal, the forecast figure for Bihar comes to 460,600 bales.

DEPARTMENT OF DEVELOPMENT, ORISSA.

FINAL FORECAST OF THE JUTE CROP OF ORISSA, 1938.

[NOTE.—**On an average of the five years ending 1936-37, the area under jute to which the Orissa forecast relates represents about 0·7 per cent. of the total area under jute in British India.**]

Acreage.—It has been found on enquiry that jute is grown also in district Puri to a small extent The figures of this district have been incorporated in the present forecast.

Since the preparation of the preliminary forecast there has been an increase in area in district Balasore due to fresh sowing. In the Kendrapara subdivision of district Cuttack the crop has failed in certain parts on account of want of timely rainfall. The areas under the crop have been resown with paddy. This explains the fall in the area under the crop in the district as reported in the preliminary forecast.

The final returns show an area of 11,900 acres under the crop against 15,600 in the last year The decrease is mainly due to unfavourable weather conditions at the time of sowing in district Cuttack

Season.—The weather conditions were not very favourable at the time of sowing specially in the district of Cuttack There was also failure of timely rainfall after sowing in parts of the Kendrapara subdivision of this district

Outturn.— In districts Cuttack and Balasore the outturn has been estimated at 68 and 86 per cent of the normal. District Puri expects a normal outturn.

According to the estimates of the District Officers, the outturn of the crop this year will be 71 per cent of the normal against 63 per cent. of the last year On the basis of $3\frac{1}{3}$ bales as the normal outturn per acre the gross yield on 11,900 acres estimated to be under cultivation this year comes to 28,200 bales against 32,900 bales of the last year.

DEPARTMENT OF AGRICULTURE, ASSAM.

FINAL FORECAST OF THE JUTE CROP OF ASSAM, 1938.

[NOTE.– **On the average of the five years ending 1936-37, the area under jute in Assam represents some 5 7 per cent. of the total area under jute in British India.**]

1. **Season.**—As indicated in the preliminary forecast the weather was not favourable for the crop. In July there appeared a high flood in the Assam Valley which caused considerable damage to the crop in many districts of which Goalpara was the worst sufferer, where the crop had been practically destroyed. The crop in Barpeta subdivision (Kamrup) also was severely damaged Some damage by insects too was reported from certain districts.

2. **Area.**—The area has been estimated by the Deputy Commissioners to be 225,200 acres as compared with last year's actual area of 219,100 acres and this year's preliminary forecast of 217,700 acres. The areas reported in the preliminary forecast have been revised in four districts

3. **Outturn.**—The outturn per acre has been estimated to be 57 per cent. of the normal against 85 per cent. (revised) of last year. Taking 3·5 bales of 400 lbs. each of jute fibre as the normal yield per acre, the total produce of the province this year amounts to 451,300 bales against 654,600 bales (revised) of last year, or a decrease of about 31 per cent

Cachar (Plains)	200	200	200	70	70	500	500	Middle of August. Early.	Weather condition from June to August was on the whole fair for the crop but heavy rainfall in May caused the outturn to fall below the normal.
Sylhet ..	13,000	37,200	42,100	85	70	110,700	103,100	Middle of August Normal.	The increase in area is due to actual survey of jute areas in the district. Some damage to the crop by insects and heavy rains was reported from places. Early rains also checked the growth of the crop to a considerable extent. These account for the low estimated outturn.
Goalpara ..	60,000	59,300	59,300	95	30	197,200	62,300	First part of June Early	The weather in June and August was not favourable for the crop. The recent flood has destroyed the crop almost everywhere in the district and hence the outturn is estimated to be abnormally low.
Kamrup ..	39,800	47,800	44,200	83	50	138,000	77,300	First week of August. Normal.	The decrease in area is due to unfavourable weather at sowing time. The flood of July also caused severe damage to the crops specially in the Barpeta Subdivision. This accounts for the low outturn.
